USE & DEFINITION OF NON-GAAP FINANCIAL MEASURE

This presentation includes the following financial measures defined as non-GAAP financial measures by the Securities and Exchange Commission: Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Fully Distributed Net Income and Adjusted Fully Distributed Net Income per Share. These measures have limitations as analytical tools and should not be considered as an alternative to, or more meaningful than, net income as determined in accordance with U.S. generally accepted accounting principles ("GAAP") or as an indicator of our liquidity. Our presentation of these non-GAAP financial measures should also not be construed as an inference that our results will be unaffected by unusual or non-recurring items. Our computations of these non-GAAP financial measures may not be comparable to other similarly titled measures of other companies.

We define Adjusted EBITDA as net income before interest expense, income taxes, depreciation, amortization and non-cash, non-recurring or non-operating expenses, including non-cash compensation expense. We define Adjusted EBITDA Margin as Adjusted EBITDA divided by net sales. Adjusted EBITDA and Adjusted EBITDA Margin are not measures of net income as determined by GAAP. Management believes Adjusted EBITDA and Adjusted EBITDA Margin allow investors to evaluate our operating performance and compare our results of operations from period to period on a consistent basis by excluding items that management does not believe are indicative of our core operating performance. Management uses Adjusted EBITDA to assist in highlighting trends in our operating results without regard to our financing methods, capital structure, and non-recurring or non-operating expenses. We exclude the items listed above from net income in arriving at Adjusted EBITDA because these amounts can vary substantially from company to company within our industry depending upon accounting methods and book values of assets, capital structures, the methods by which assets were acquired and other factors.

Certain items excluded from Adjusted EBITDA are significant components in understanding and assessing a company's financial performance, such as a company's cost of capital and tax structure, as well as the historical costs of depreciable assets.

We define Adjusted Fully Distributed Net Income as net income attributable to Malibu Boats, Inc. (i) excluding income tax expense, (ii) excluding the effect of non-recurring or non-cash items, (iii) assuming the exchange of all LLC units into shares of Class A Common Stock, which results in the elimination of non-controlling interest in Malibu Boats Holdings, LLC (the "LLC"), and (iv) reflecting an adjustment for income tax expense on fully distributed net income before income taxes at our estimated effective income tax rate. Adjusted Fully Distributed Net Income is a non-GAAP financial measure because it represents net income attributable to Malibu Boats, Inc., before non-recurring or non-cash items and the effects of non-controlling interests in the LLC. We use Adjusted Fully Distributed Net Income to facilitate a comparison of our operating performance on a consistent basis from period to period that, when viewed in combination with our results prepared in accordance with GAAP, provides a more complete understanding of factors and trends affecting our business than GAAP measures alone. We believe Adjusted Fully Distributed Net Income assists our board of directors, management and investors in comparing our net income on a consistent basis from period to period because it removes non-cash or non-recurring items, and eliminates the variability of non-controlling interest as a result of member owner exchanges of LLC units into shares of Class A Common Stock. In addition, because Adjusted Fully Distributed Net Income is susceptible to varying calculations, the Adjusted Fully Distributed Net Income measures, as presented in this presentation, may differ from and may, therefore, not be comparable to similarly titled measures used by other companies.

A reconciliation of our net income as determined in accordance with GAAP to Adjusted EBITDA and the numerator and denominator for our net income available to Class A Common Stock per share to Adjusted Fully Distributed Net Income per share of Class A Common Stock is provided under "Reconciliation of Non-GAAP Financial Measures".

FORWARD LOOKING STATEMENTS

This presentation includes forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995). Forward-looking statements can be identified by such words and phrases as “believes,” “anticipates,” “expects,” “intends,” “estimates,” “may,” “will,” “should,” “continue” and similar expressions, comparable terminology or the negative thereof, and includes statements in this presentation regarding trends toward larger, more custom boats; our expectations for opportunities for growth and demand for our products, including beyond calendar year 2023; and our ability to continue to deliver value for our stockholders.

Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, including, but not limited to: general industry, economic and business conditions; our large fixed cost base; increases in the cost of, or unavailability of, raw materials, component parts and transportation costs; disruptions in our suppliers’ operations; our reliance on third-party suppliers for raw materials and components and any interruption of our informal supply arrangements; our reliance on certain suppliers for our engines and outboard motors; our ability to meet our manufacturing workforce needs; exposure to workers' compensation claims and other workplace liabilities; our ability to grow our business through acquisitions and integrate such acquisitions to fully realize their expected benefits; our growth strategy which may require us to secure significant additional capital; our ability to protect our intellectual property; disruptions to our network and information systems; our success at developing and implementing a new enterprise resource planning system; risks inherent in operating in foreign jurisdictions; the effects of the COVID-19 pandemic on us; a natural disaster, global pandemic or other disruption at our manufacturing facilities; increases in income tax rates or changes in income tax laws; our dependence on key personnel; our ability to enhance existing products and market new or enhanced products; the continued strength of our brands; the seasonality of our business; intense competition within our industry; increased consumer preference for used boats or the supply of new boats by competitors in excess of demand; competition with other activities for consumers’ scarce leisure time; changes in currency exchange rates; inflation and increases in interest rates; an increase in energy and fuel costs; our reliance on our network of independent dealers and increasing competition for dealers; the financial health of our dealers and their continued access to financing; our obligation to repurchase inventory of certain dealers; our exposure to claims for product liability and warranty claims; changes to U.S. trade policy, tariffs and import/export regulations; any failure to comply with laws and regulations including environmental, workplace safety and other regulatory requirements; our holding company structure; covenants in our credit agreement governing our revolving credit facility which may limit our operating flexibility; our variable rate indebtedness which subjects us to interest rate risk; our obligation to make certain payments under a tax receivables agreement; any failure to maintain effective internal control over financial reporting or disclosure controls or procedures; and other factors affecting us detailed from time to time in our filings with the Securities and Exchange Commission. Many of these risks and uncertainties are outside our control, and there may be other risks and uncertainties which we do not currently anticipate because they relate to events and depend on circumstances that may or may not occur in the future. Although we believe that the expectations reflected in any forward-looking statements are based on reasonable assumptions at the time made, we can give no assurance that our expectations will be achieved. Undue reliance should not be placed on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation (and we expressly disclaim any obligation) to update or supplement any forward-looking statements that may become untrue because of subsequent events, whether because of new information, future events, changes in assumptions or otherwise. Comparison of results for current and prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

THREE MONTHS ENDED FISCAL Q3 2023

- Delivered strong results, meeting expectations as we navigated a dynamic market environment
- Record Q3 net sales of $375.1 million, up 9.0% year-over-year
  - Driven by increased unit volumes for our Saltwater Fishing and Cobalt segments, strong ASPs and favorable model mix
- Gross margin of 26.3%, down 190bps year-over-year
  - Decline due to slower volume growth within our higher margin Malibu/Axis segment as channel inventories normalize
- Adjusted EBITDA margin of 21.1%

RECONCILIATION OF NET INCOME ATTRIBUTABLE TO CLASS A COMMON STOCK TO ADJUSTED FULLY DISTRIBUTED NET INCOME OF CLASS A COMMON STOCK (UNAUDITED):

(1) For the three months ended March 31, 2023 and 2022, represents amortization of intangibles acquired in connection with the acquisitions of Maverick Boat Group, Pursuit and Cobalt.

(2) Represents equity-based incentives awarded to certain of our employees under the Malibu Boats, Inc. Long-Term Incentive Plan and profit interests issued under the previously existing limited liability company agreement of the LLC.

(3) Reflects the elimination of the non-controlling interest in the LLC as if all LLC members had fully exchanged their LLC Units for shares of Class A Common Stock.

(4) Reflects income tax expense at an estimated normalized annual effective income tax rate of 24.3% and 23.8% of income before income taxes for the three month period ended March 31, 2023 and 2022, respectively, assuming the conversion of all LLC Units into shares of Class A Common Stock. The estimated normalized annual effective income tax rate for fiscal year 2023 is based on the federal statutory rate plus a blended state rate adjusted for the research and development tax credit, the foreign derived intangible income deduction, and foreign income taxes attributable to our Australian subsidiary.

(5) Represents the weighted average shares outstanding of LLC Units held by non-controlling interests assuming they were exchanged into Class A Common Stock on a one-for-one basis.

(6) Represents the weighted average unvested restricted stock awards included in outstanding shares during the applicable period that were convertible into Class A Common Stock and granted to members of management.

(7) Reflects impact of increased share counts assuming the exchange of all weighted average shares outstanding of LLC Units into shares of Class A Common Stock and the conversion of all weighted average unvested restricted stock awards included in outstanding shares granted to members of management.
