

Forward-Looking Statements

This website may include statements which are not historical facts and are considered “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views about future events. You should not rely on forward-looking statements because our actual results may differ materially from those predicted as a result of a number of potential risks and uncertainties. These potential risks and uncertainties include, but are not limited to: the imposition of or changes to tariff rates and related impacts to our business and the broader market; the effectiveness, timing and expected savings associated with our cost-cutting actions, restructuring and initiatives; integration of acquired businesses in a timely and cost-effective manner, retention of supplier and customer relationships and key employees, and the ability to achieve synergies and cost savings in the amounts and within the time frames currently anticipated; current economic and financial conditions, which can affect the housing and construction markets where our products are sold, manufactured and marketed; shortages in and pricing of raw materials and supplies; our ability to compete effectively; changes in variable interest rates on our borrowings; inflation; failure to expand our markets through acquisitions; failure to successfully develop and introduce new product offerings or enhancements to existing products; failure to manufacture products that meet required performance and safety standards; foreign exchange rate fluctuations; cyclicalities of industries where we market our products, such as plumbing and heating wholesalers and home improvement retailers; environmental compliance costs; product liability risks and costs; changes in the status of current litigation; the impacts and duration of the Middle East conflict, the war in Ukraine and other global crises; supply chain and logistical disruptions or labor shortages and workforce disruptions that could negatively affect our supply chain, manufacturing, distribution, or other business processes; and other risks and uncertainties discussed under the heading “Certain Factors Affecting Future Results” in our most recent Annual Report on Form 10-K filed with the Securities Exchange Commission and other reports we file from time to time with the Securities and Exchange Commission. We do not intend to, and undertake no duty to, update the information contained in this website, except as required by law.
