("**Codere Online**"), and all the subsidiaries over which it has or might have direct or indirect control ("**Codere Online Group**"), carries out its activity according to the highest standards of business integrity, honesty, transparency, loyalty and in accordance with the laws and regulations applicable to its activity.

Our adherence to business quality standards is confirmed in our Code of Ethics and Integrity (the "**Code**"). This Policy is applicable to all professionals of Codere Online Group (directors, officers including Codere Online's chief executive officer, chief financial officer, chief accounting officer or controller, or persons performing similar functions, managers and collaborators in general), regardless of their hierarchical level and their geographical or functional location, as well as for all those who wish to start a working or business relationship with Codere Online Group. Likewise, this Policy applies to third parties acting in the name and for the account of the Codere Online Group ("**Parties Bound**").

3. ACTION PRINCIPLES

In general, in accordance with the provisions of the Code, Parties Bound shall act with

loyalty towards Codere Online Group, avoiding situations or legal relationships that entail a conflict of interest between the interests of Codere Online Group and their private interests.

A conflict of interest arises when personal, professional, financial or other types of interest interfere, or might interfere, with the objectivity or loyalty of a Party Bound with respect to Codere Online Group.

Codere Online considers conflict of interest broadly: actual conflict of interest (real and existing conflict), potential (the Party Bound is or could be in a situation that may result in a conflict of interest) and perceived (the Party Bound is or could be in a situation that could be perceived as conflictive, even though, in fact, this is not the case).

In any event, the different situations in which the risk of a conflict of interest occurring exists, include, without limitation:

- Circumstances in which any of the Parties Bound or persons related¹ to them, (“**Related Parties**”) have economic and/or financial interests or hold the position of administrator or director in any entity that acts, or is going to act, as supplier, competitor, contract counterparty in general;
- Circumstances in which as a result of using their position in Codere Online Group or any information or opportunities acquired when carrying out their duties, an advantage or benefit is obtained either in the form of favours, loans or any type of personal benefit for themselves or third parties; and
- Circumstances in which there is a relationship of any type of subordination involving any of the Parties Bound and Related Parties.

In this respect, Codere Online stipulates the following obligations that must be met by Parties Bound:

- **Identify the existence, potential existence or perceived existence**, of the activities they carry out or are going to carry out, as well as any changes in the current circumstances.
- In the event of identifying a potential circumstance of conflict of interest, **abstain from participating** directly or indirectly in activities that might potentially constitute a conflict of interest, until the matter has been resolved by the Compliance Committee with the assistance of Codere Online’s Chief Compliance Officer.
- If there are reasonable indicators that a violation of the law or the standards of conduct of the Code and its related policies, procedures and manuals has been committed, the complainant may report through the following channels:

¹ Related Party means any child, stepchild, parent, step-parent, spouse, sibling, mother-in-law, father-in-law, son-in-law or daughter-in-law of a Party Bound as well as any person (other than a tenant or employee) sharing the same household or engaged in a romantic relationship with the Party Bound.

-Through the anonymous reporting tool managed by a third party service provider which can be accessed online through the secure website: <https://codereonline.ethicalchannel.app/> ("the **Online Channel**"). This tool will be published on the Codere Online intranet and website (www.codereonline.com).

- Through the corporate email address: ethicalchannel.online@codere.com ("the **Email Address**").

- Through the direct report to the hierarchical superior, who must communicate the report within two (2) days to the local Compliance Officer ("**Local Compliance Officer**") and to the Chief Compliance Officer of Codere Online ("**Chief Compliance Officer**" or "**Compliance Director**").

- Through the following postal address: Alcobendas, Avda. de Bruselas, 26, 28108 Alcobendas (Madrid).

Such reports must indicate whether the conflict is personal or through the Related Parties, in which case they must be identified for evaluation. Following this evaluation, the authorised or non-authorised performance of the activity that might potentially generate a conflict of interest, shall be communicated to the Parties Bound.

- **Abstain from participating** directly or indirectly in activities that might constitute a conflict of interest. Abstain from decision-making and avoid accessing confidential information.
