Aviv Sher, Chief Executive Officer of Codere Online, commented, “In the fourth quarter of 2025, our net gaming revenue reached €60.7 million, marking the highest quarterly figure in the Company’s history.” This increase was mostly driven by Mexico, where our net gaming revenue grew 31% on the back of a 43% increase in our portfolio of active customers in the country. In December, we hit a record of 100,000 active players in the country, positioning us well for the upcoming World Cup this summer”.

Marcus Arildsson, CFO of Codere Online, commented, “Beyond the strong top line performance in the fourth quarter, we also had a significant uplift in Adj. EBITDA to €6.7 mm in the period, allowing us to meet the upper part of the 2025 outlook range we provided last year.”

Mr. Arildsson further stated, “As we look out to 2026, we are encouraged by the strong trends in both Mexico and Spain and expect our net gaming revenue for the year to be in the €235-245 million range and Adj. EBITDA between €15 and 20 million.”

### **Financial Information and Non-GAAP Financial Measures**

Codere Online's financial statements are prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"), which can differ in certain significant respects from generally accepted accounting principles in the United States of America ("U.S. GAAP").

This document includes certain financial measures not presented in accordance with U.S. GAAP or IFRS ("non-GAAP"), such as, without limitation, net gaming revenue, Adjusted EBITDA and constant currency information. These non-GAAP financial measures are not measures of financial performance in accordance with U.S. GAAP or IFRS and may exclude items that are significant in understanding and assessing Codere Online's financial results. Therefore, these measures should not be considered in isolation or as an alternative to revenue, net income, cash flows from operations or other measures of profitability, liquidity or performance under U.S. GAAP or IFRS. You should be aware that Codere Online's presentation of these measures may not be comparable to similarly-titled measures used by other companies. In addition, the audit of Codere Online's financial statements in accordance with PCAOB standards, may impact how Codere Online currently calculates its non-GAAP financial measures, and we cannot assure you that there would not be differences, and such differences could be material.

Codere Online believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends in comparing Codere Online's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. These non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. Reconciliations of non-GAAP financial measures to their most directly comparable measure under IFRS are included herein.

This document may include certain projections of non-GAAP financial measures. Codere Online is unable to quantify certain amounts that would be required to be included in the most directly comparable U.S. GAAP or IFRS financial measures without unreasonable effort, due to the inherent difficulty and variability of accurately forecasting the occurrence and financial impact of the various adjusting items necessary for such comparable measures or such reconciliation that have not yet occurred, are out of our control, or cannot be reasonably predicted, ascertained or assessed, which could have a material impact on its future IFRS financial results. Consequently, no disclosure of estimated comparable U.S. GAAP or IFRS measures is included and no reconciliation of the forward-looking non-GAAP financial measures is included.
