The Cheesecake Factory Incorporated
Appendix A to Form 8937
Report of Organizational Actions Affecting Basis of Securities
Debt Instrument: 2.00% Convertible Senior Notes due 2030
March 4, 2026 Conversion Rate Adjustment

Section 6045B of the U.S. Internal Revenue Code (the “Code”) and the Treasury Regulations promulgated thereunder provide that, if a company pays a cash dividend with respect to its stock that results in a conversion rate adjustment on a convertible debt instrument that is treated as a deemed distribution under Sections 305(b)(2) and 305(c) of the Code, an information return on Form 8937, *Report of Organizational Actions Affecting Stock Basis of Securities*, must be filed with the Internal Revenue Service or, in lieu of filing, posted to the Company’s public website.

The information contained in the attached Form 8937 and this Appendix A is intended to satisfy the public reporting requirements under Section 6045B of the Code and is intended to provide only a general summary of certain U.S. federal income tax consequences of the conversion rate adjustment. Such information is not intended to be a complete analysis or description of all potential federal or other tax consequences of the conversion rate adjustment. Noteholders should consult their own tax advisors to determine the particular federal, state, local or foreign income, reporting, or other tax consequences of the conversion rate adjustment applicable to them.

On February 28, 2025, The Cheesecake Factory Incorporated (NASDAQ: CAKE) (the “Company”) issued \$575 million in aggregate principal amount of 2.00% Convertible Senior Notes due 2030 (the “Notes”). The Notes are convertible into shares of the Company’s common stock, par value \$0.01 per share (the “Common Stock”). The terms of the Notes include anti-dilutive protections that provide for an increase in the number of shares of Common Stock issued by the Company upon conversion of the Notes in the event of payment of cash dividends on the Common Stock. This increase in the conversion rate of the Notes occurs on the ex-dividend date for cash dividends paid on the Common Stock in excess of the specified dividend threshold of \$0.27.

Line 14 – Description of the Organizational Action

On March 17, 2026, the Company paid a cash dividend of \$0.30 per share with respect to its Common Stock to holders of record of the Common Stock on March 4, 2026. Under the anti-dilution provisions, the Company made an adjustment to the conversion rate of the Notes, effective March 4, 2026 (the ex-dividend date of the March 17, 2026 dividend.) The increase in the conversion rate resulted in a deemed dividend to holders of the Notes under Section 305(c) of the Code effective March 4, 2026.

Line 15 – Description of the Quantitative Effect of the Organizational Action

Effective March 4, 2026, the conversion rate on the Notes increased from 14.1377 shares of Common Stock per \$1,000 principal of Notes held to 14.1444 shares of Common Stock per \$1,000 principal of Notes held. The deemed dividend under Section 305(c) to holders of the Notes that resulted from the

conversion rate adjustment increased the basis of the Notes by \$0.4255 per \$1,000 principal of Notes held.

Line 16 – Description of the Calculation of the Change in Basis

The adjusted conversion rate of 14.1444 shares of Common Stock per \$1,000 principal of Notes held was determined, pursuant to the formula provided in the Notes, as follows:

$$14.1444 = 14.1377 \times ((\$63.54 - \$0.27) / (\$63.54 - \$0.30))$$

Where:

14.1377 = the conversion rate in effect immediately before the open of business on March 4, 2026, the ex-dividend date for the dividend;

14.1444 = the conversion rate in effect immediately after the open of business on March 4, 2026;

\$63.54 = the last reported sales price per share of our common stock on March 3, 2026, the trading day immediately before the ex-dividend date;

\$0.27 = the dividend threshold amount per share of our Common Stock; and

\$0.30 = the cash dividend amount distributed on March 17, 2026 per share of our Common Stock.

The tax basis adjustment of \$0.4255 per \$1,000 principal of Notes held was determined as follows:

$$\$0.4255 = (\$63.54 - (\$0.30 - \$0.27)) \times (14.1444 - 14.1377)$$

Where:

14.1377 = the conversion rate in effect immediately before the open of business on March 4, 2026, the ex-dividend date for the dividend;

14.1444 = the conversion rate in effect immediately after the open of business on March 4, 2026;

\$63.54 = the last reported sales price per share of our common stock on March 3, 2026, the trading day immediately before the ex-dividend date;

\$0.27 = the dividend threshold amount per share of our Common Stock; and

\$0.30 = the cash dividend amount distributed on March 17, 2026 per share of our Common Stock.
