D2L

Transform the way the world learns

JOHN BAKER, FOUNDER & CEO
JOSH HUFF, CFO

June 2023

D2L has a fiscal year ended January 31
All figures are U.S. dollar denominated, unless otherwise noted

Disclaimer

Forward-Looking Information

This presentation and the accompanying oral statements, including in response to questions, contains “forward-looking information” within the meaning of applicable securities laws. Forward-looking information may relate to our future financial outlook and anticipated events or results and may include information regarding our financial position, business strategy, growth strategies, addressable markets, budgets, operations, financial results, taxes, dividend policy, plans and objectives. Particularly, information regarding our expectations of future results, performance, achievements, prospects or opportunities or the markets in which we operate is forward-looking information. In some cases, forward-looking information can be identified by the use of forward-looking terminology such as “plans”, “expects”, “budget”, “scheduled”, “estimates”, “outlook”, “target”, “forecasts”, “projection”, “potential”, “prospects”, “strategy”, “intends”, “anticipates”, “seek”, “believes”, “opportunity”, “guidance”, “aim”, “goal” or variations of such words and phrases or statements that certain future conditions, actions, events or results “may”, “could”, “would”, “should”, “might”, “will”, “can”, or negative versions thereof, “be taken”, “occur”, “continue” or “be achieved”, and other similar expressions. Statements containing forward-looking information are not historical facts but instead represent management’s expectations, estimates and projections regarding future events or circumstances. The Company has based the forward-looking information on its current expectations and projections about future events and financial trends that it believes might affect its financial condition, results of operations, business strategy and financial needs.

This forward-looking information includes, but is not limited to, the Company’s financial position, financial results, business strategy, performance, achievements, prospects, objectives, opportunities, business plans and growth strategies; the Company’s budgets, operations and taxes; the markets in which the Company operates; industry trends and the Company’s competitive position; expansion of the Company’s product offerings; trends in research and development expenses as a percentage of revenue; the Company’s medium term target operating model; the timing and pace for achieving profitability; expectation of margin expansion and Free Cash Flow growth; and expectations regarding the growth of the Company’s customer base, revenue and revenue generation potential, including our outlook for the year ending January 31, 2024 ("Fiscal 2024"). Forward-looking information is based on certain assumptions, expectations and projections, and analyses made by the Company in light of management’s experience and perception of historical trends, current conditions and expected future developments and other factors it believes are appropriate, including the following: the Company’s ability to win business from new customers and expand business from existing customers; the timing of new customer wins and expansion decisions by existing customers; the Company’s ability to generate revenue and expand its business while controlling costs and expenses; the Company’s ability to manage growth effectively; the Company’s ability to hire and retain personnel effectively; the effects of foreign currency exchange rate fluctuations on our operations; the ability to seek out, enter into and successfully integrate acquisitions; business and industry trends, including the success of current and future product development initiatives; positive social development and attitudes toward the pursuit of higher education; the Company’s ability to maintain positive relationships with its customer base and strategic partners; the Company’s ability to adapt and develop solutions that keep pace with continuing changes in technology, education and customer needs; the ability to patent new technologies and protect intellectual property rights; the Company’s ability to comply with security, cybersecurity and accessibility laws, regulations and standards; the assumptions underlying the judgments and estimates impacting on financial statements; and the Company’s ability to retain key personnel; and the factors and assumptions discussed under the “Financial Outlook - Medium Term Target Operating Model” section of the Company’s Management’s Discussion and Analysis (“MD&A”) for the 12 months ended January 31, 2023 do not have a material impact on the Company.

Although the Company believes that the assumptions underlying such forward-looking information were reasonable when made, they are inherently uncertain and are subject to significant risks and uncertainties and may prove to be incorrect. The Company cautions investors that forward-looking information is not a guarantee of the future and that actual results may differ materially from those made in or suggested by the forward-looking information contained in this presentation. Whether actual results, performance or achievements will conform to the Company’s expectations and predictions is subject to a number of known and unknown risks, uncertainties and other factors, including but not limited to the risks identified in the Company’s annual MD&A for the year ended January 31, 2023 or the Company’s Annual Information Form for the year ended January 31, 2023, each of which is available under our profile on SEDAR at www.sedar.com. If any of these risks or uncertainties materialize, or if assumptions underlying the forward-looking information prove incorrect, actual results might vary materially from those anticipated in the forward-looking information. Given these risks and uncertainties, investors are cautioned not to place undue reliance on forward-looking information. Any forward-looking information that is contained in this presentation speaks only as of the date of such statement, and the Company undertakes no obligation to update any forward-looking information or to publicly announce the results of any revisions to any of those statements to reflect future events or developments, except as required by applicable securities laws.

Non-IFRS Financial Measures and Other Measures

The information presented within this presentation refers to certain non-IFRS financial measures (including non-IFRS ratios) including Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Gross Profit, Adjusted Gross Margin, Free Cash Flow, Free Cash Flow Margin, and Constant Currency Revenue. These measures are not recognized measures under IFRS and do not have a standardized meaning prescribed by IFRS. Non-IFRS financial measures should not be considered in isolation nor as a substitute for analysis of the Company’s financial information reported under IFRS and are unlikely to be comparable to similar measures presented by other issuers. Rather, these measures are provided as additional information to complement those IFRS measures by providing further understanding of the Company’s results of operations, financial performance and liquidity from management’s perspective and thus highlight trends in its core business that may not otherwise be apparent when relying solely on IFRS measures. The Company believes that securities analysts, investors and other interested parties frequently use non-IFRS financial measures in the evaluation of the Company. The Company’s management also uses non-IFRS financial measures in order to facilitate operating performance comparisons from period to period, to prepare annual operating budgets and forecasts, and assess our ability to meet our capital expenditures and working capital requirements. For reconciliations of, and further explanations on the composition and uses of, such non-IFRS financial measures, including those used as components of non-IFRS ratios, please refer to the “Non-IFRS Financial Measures” and the “Non-IFRS Financial Measures – Explanation and Reconciliation of Non-IFRS Financial Measures” parts of the Company’s annual MD&A for the year ended January 31, 2023 as available under the Company's profile on SEDAR at www.sedar.com, which reconciliations and further explanations are incorporated herein by reference.

The information presented in this presentation also includes key performance indicators used by management such as Annual Recurring Revenue and Constant Currency Annual Recurring Revenue. An explanation of the composition of such measures is described in the "Non-IFRS and Other Financial Measures - Key Performance Indicators" part of the Company’s MD&A for the three months ended April 30, 2023 as available under the Company's profile on SEDAR at www.sedar.com, which explanations are incorporated herein by reference.

All figures are U.S. dollar denominated, unless otherwise noted. Certain totals, subtotals and percentages may not reconcile due to rounding.

Key growth pillars

Expand customer base

28% customer growth FY2021 to FY2023

- Strategic investments in direct and indirect go-to-market strategies

Grow share of wallet

40+ customer success professionals

- Upsell add-on solutions
- Cross-sell new lines of business
- Adoption campaigns
- Education & support

Expand platform

Continued investments in R&D (26% of revenue in FY23)

- Enhance differentiation
- Mastery-based learning
- Analytics, AI, ML
- Open standards/ APIs

International expansion

~17% of revenues in FY23

- Regional presence in key markets
- Emerging market pricing strategies
- Digitization greenfield
- Expected to comprise greater share of revenue over time

M&A

Opportunistic acquisitions that reinforce mission

- Drive growth within base with increased upsell
- Expand target markets with additional functionality, resources and reach
- Enable new market entry
- Provide cross-sell opportunities
