Forward-Looking Statements

This document contains statements that are, or may be deemed to be, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, any financial or other guidance, statements that reflect our current expectations concerning future results and events, and any other statements that are not based solely on historical fact. Forward-looking statements are based on management's expectations, certain assumptions, and currently available information. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof and are based on various assumptions as to future events, the occurrence of which necessarily are subject to uncertainties. These forward-looking statements are made subject to certain risks, uncertainties, and other factors, which could cause CTS' actual results, performance, or achievements to differ materially from those presented in the forward-looking statements. Examples of factors that may affect future operating results and financial condition include, but are not limited to: supply chain disruptions; changes in the economy generally, including inflationary and/or recessionary conditions, and in respect to the business in which CTS operates; unanticipated issues in integrating acquisitions, including our acquisitions of TEWA Temperature Sensors, Ferroperm Piezoceramics and maglab, A.G.; the results of actions to reposition CTS' business; rapid technological change; general market conditions in the transportation, as well as conditions in the industrial, aerospace and defense, and medical markets; reliance on key customers; unanticipated public health crises (including the ultimate impact of the COVID-19 pandemic on CTS' business, results of operations or financial condition), natural disasters or other events; environmental compliance and remediation expenses; the ability to protect CTS' intellectual property; pricing pressures and demand for CTS' products; and risks associated with CTS' international operations, including trade and tariff barriers, exchange rates and political and geopolitical risks (including, without limitation, the potential impact U.S./China relations and the conflict between Russia and Ukraine may have on our business, results of operations and financial condition). Many of these, and other risks and uncertainties, are discussed in further detail in Item 1A. of CTS' most recent Annual Report on Form 10-K and other filings made with the SEC. CTS undertakes no obligation to publicly update CTS' forward-looking statements to reflect new information or events or circumstances that arise after the date hereof, including market or industry changes.

Non-GAAP Financial Measures

From time to time, CTS may use non-GAAP financial measures in discussing CTS' business. These measures are intended to supplement, not replace, CTS' presentation of its financial results in accordance with U.S. GAAP. CTS believes that the non-GAAP financial measures presented are commonly used by financial analysts and others in the industries in which CTS operates, and thus further provide useful information to investors. CTS' definitions of these non-GAAP financial measures may differ from those terms as defined or used by other companies. Non-GAAP measures should not be used by investors or third parties as the sole basis for formulating investment decisions, as they may exclude a number of important cash and non-cash recurring items.

CTS has presented these non-GAAP financial measures as it believes that the presentation of its financial results that exclude (1) restructuring charges; (2) environmental charges; (3) acquisition-related costs; (4) inventory fair value step-up costs; (5) foreign exchange (gains) losses; (6) non-cash pension expenses (income); and (7) certain discrete tax items are useful and assist in comparing CTS' current operating results with past periods and with the operational performance of other companies in its industry. Included below is a description of the expenses that CTS has determined are not normal, recurring cash operating expenses necessary to operate its business and the rationale for why providing financial measures for its business with such expenses excluded or adjusted is useful to investors as a supplement to the U.S. GAAP measures.

- Restructuring charges - costs primarily relating to workforce reduction costs, building and equipment relocation costs, asset impairment charges and other facility closure costs in connection with our continued optimization of our organization.
- Environmental charges - costs associated with our non-operating facilities that are unrelated to ongoing operations.
- Acquisition-related costs – diligence and transaction costs related to acquisitions.
- Inventory fair value step-up costs - purchase accounting-related inventory costs from acquisitions.
- Foreign exchange (gains) losses - remeasurement income and expenses for non-U.S. subsidiaries with the U.S. dollar as its functional currency.
- Non-cash pension expenses (income) - pension income and expenses relating to the non-operating U.S. pension and post-retirement life insurance plans, including historical plan settlement activities.
- Discrete tax items - non-recurring, infrequent, or unusual tax adjustments (e.g., valuation allowances, uncertain tax position changes, unremitted assertion changes and discrete impacts associated with pre-tax non-GAAP items, etc.).

At times, the reconciliations below have been intentionally rounded to the nearest thousand, or $0.01 for EPS figures, and, therefore, may not sum.

CTS does not provide reconciliations of forward-looking non-GAAP financial measures, such as estimated adjusted diluted earnings per share, to the most comparable GAAP financial measures on a forward-looking basis because CTS is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of certain items, such as, but not limited to, restructuring costs, environmental remediation costs, acquisition related costs, foreign exchange rates and other non-routine costs. Each of such adjustments has not yet occurred, are out of CTS' control and/or cannot be reasonably predicted. For the same reasons, CTS is unable to address the probable significance of the unavailable information.

NOTE: CTS believes that adjusted gross margin, adjusted selling, general & administrative expense, adjusted EBITDA margin, adjusted net earnings and adjusted diluted earnings per share provide useful information to investors regarding its operational performance because they enhance an investor's overall understanding of CTS' core financial performance and facilitate comparisons to historical results of operations, by excluding items that are not related directly to the underlying performance of CTS' fundamental business operations (such as those items noted above in the paragraph titled "Non-GAAP Financial Measures") or were not part of CTS' business operations during a comparable period.

Capital expenditures	(14.3)
Free cash flow	**$ 106.9**
Adjusted Net earnings	$ 79.1
Operating Cash Flow as % of Adj. Net Earnings	135%

NOTE: CTS believes that free cash flow is a useful measure because it demonstrates the company's ability to generate cash. Free cash flow is a non-GAAP measure and should be considered in addition to, but not as a substitute for, information contained in the company's condensed consolidated statement of cash flows as a measure of liquidity.
