Overview – Second Quarter 2026

- (a) Normalized pro rata cash NOI, adjusted EBITDA and AFFO are non-GAAP measures. See the [Disclosures Regarding Non-GAAP and Other Metrics](#) section in the Appendix for a description of our non-GAAP measures and for details on how certain non-GAAP measures are calculated.
- (b) Presented on a pro rata basis. See the [Disclosures Regarding Non-GAAP and Other Metrics](#) section in the Appendix for a description of pro rata.
- (c) Represents dividends declared per share divided by AFFO per diluted share on a year-to-date basis.
- (d) Represents total pro rata debt outstanding less consolidated cash and cash equivalents. See the [Disclosures Regarding Non-GAAP and Other Metrics](#) section in the Appendix for a description of pro rata.
- (e) Gross assets represent consolidated total assets before accumulated depreciation on buildings and improvements. Gross assets are net of accumulated amortization on in-place lease intangible assets of \$1.0 billion and above-market rent intangible assets of \$500.5 million.
- (f) Represents (i) availability under our Senior Unsecured Credit Facility (net of amounts reserved for standby letters of credit), (ii) consolidated cash and cash equivalents, and (iii) available proceeds under our forward equity agreements (based on 9,914,031 remaining shares and total expected net proceeds of \$690.7 million as of June 30, 2026, which will be updated at each quarter end).
- (g) Reflects the impact of 9,914,031 shares of unsettled forward equity, as if they had been settled for cash, for total expected net proceeds of \$690.7 million as of June 30, 2026.
- (h) See the [Disclosures Regarding Non-GAAP and Other Metrics](#) section in the Appendix for a description of ABR.
- (i) Comprises four hotels and one student housing property.
- (j) Percentage of portfolio is based on ABR, as of June 30, 2026. Includes tenants or guarantors with investment grade ratings (16.3%) and subsidiaries of non-guarantor parent companies with investment grade ratings (6.4%). Investment grade refers to an entity with a rating of BBB- or higher from Standard & Poor's Ratings Services or Baa3 or higher from Moody's Investors Service. See the [Disclosures Regarding Non-GAAP and Other Metrics](#) section in the Appendix for a description of ABR.
- (k) See the [Same-Store Analysis](#) section for a description of contractual same-store growth.

Same-Store Pro Rata Rental Income	\$ 335,974	\$ 335,395

(a) Includes automotive dealerships.

(b) Includes ABR or same-store pro rata rental income from tenants with the following property types: education facility, specialty, self-storage (net lease), laboratory, research and development, office, hotel (net lease) and land.

(c) Represents leases attributable to percentage rent.

(d) Includes assets in Canada, Mexico and Mauritius.

(e) This adjustment excludes amounts attributable to properties that were acquired, sold or listed as capital investments and commitments (see [Investment Activity – Capital Investments and Commitments](#) section) that were not continuously owned and in place during the quarter ended June 30, 2025 through June 30, 2026. In addition, for the three months ended June 30, 2025, an adjustment is made to reflect average exchange rates for the three months ended June 30, 2026 for purposes of comparability, since same-store pro rata rental income is presented on a constant currency basis.

(b) For properties acquired and capital investments and commitments completed during the three months ended June 30, 2026, the adjustment modifies our pro rata share of cash NOI for the partial period with an amount estimated to be equivalent to the additional pro rata share of cash NOI necessary to reflect ownership for the full quarter. For properties disposed of during the three months ended June 30, 2026, the adjustment eliminates our pro rata share of cash NOI for the period. If there is a rent abatement, we annualize the first monthly contractual base rent following the free rent period.

(a) Comprises items that we do not consider to be part of our core operating business plan or representative of our overall long-term operating performance, based on a number of factors, including the nature of the item and/or the frequency with which it occurs. We believe that these adjustments provide a more representative view of EBITDA from our core operating business and allow for more meaningful comparisons.

(b) Primarily comprises gains and losses on the mark-to-market fair value of equity securities, foreign currency exchange rate movements, changes in the non-cash allowance for credit losses on loans receivable and finance leases, and extinguishment of debt. Amounts from period to period will not be comparable due to unpredictable fluctuations in these gains and losses.

Disclosures Regarding Non-GAAP and Other Metrics

Non-GAAP Financial Disclosures

FFO and AFFO

Due to certain unique operating characteristics of real estate companies, as discussed below, NAREIT, an industry trade group, has promulgated a non-GAAP measure known as FFO, which we believe to be an appropriate supplemental measure, when used in addition to and in conjunction with results presented in accordance with GAAP, to reflect the operating performance of a REIT. The use of FFO is recommended by the REIT industry as a supplemental non-GAAP measure. FFO is not equivalent to, nor a substitute for, net income or loss as determined under GAAP.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as restated in December 2018. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from the sale of certain real estate, impairment charges on real estate or other assets incidental to the company's main business, gains or losses on changes in control of interests in real estate and depreciation and amortization from real estate assets; and after adjustments for unconsolidated partnerships and jointly owned investments. Adjustments for unconsolidated partnerships and jointly owned investments are calculated to reflect FFO on the same basis.

We also modify the NAREIT computation of FFO to adjust GAAP net income for certain non-cash charges, such as amortization of real estate-related intangibles, deferred income tax benefits and expenses, straight-line rent and related reserves, other non-cash rent adjustments, non-cash allowance for credit losses on loans receivable and finance leases, stock-based compensation, non-cash environmental accretion expense, amortization of discounts and premiums on debt and amortization of deferred financing costs. Our assessment of our operations is focused on long-term sustainability and not on such non-cash items, which may cause short-term fluctuations in net income but have no impact on cash flows. Additionally, we exclude non-core income and expenses, such as gains or losses from extinguishment of debt, gains or losses on the mark-to-market fair value of equity securities, merger and acquisition expenses, spin-off expenses, and income and expenses associated with our captive insurance company. We also exclude realized and unrealized gains/losses on foreign currency exchange rate movements (other than those realized on the settlement of foreign currency derivatives), which are not considered fundamental attributes of our business plan and do not affect our overall long-term operating performance. We refer to our modified definition of FFO as AFFO. We exclude these items from GAAP net income to arrive at AFFO because they are not the primary drivers in our decision-making process and excluding these items provides investors with a view of our portfolio performance over time and makes it more comparable to other REITs. AFFO also reflects adjustments for unconsolidated partnerships and jointly owned investments. We use AFFO as one measure of our operating performance when we formulate corporate goals, evaluate the effectiveness of our strategies and determine executive compensation.

We believe that AFFO is a useful supplemental measure for investors to consider because we believe it will help them better assess the sustainability of our operating performance without the potentially distorting impact of these short-term fluctuations. However, there are limits on the usefulness of AFFO to investors. For example, impairment charges and unrealized foreign currency exchange rate losses that we exclude may become actual realized losses upon the ultimate disposition of the properties in the form of lower cash proceeds or other considerations. We use our FFO and AFFO measures as supplemental financial measures of operating performance. We do not use our FFO and AFFO measures as, nor should they be considered to be, alternatives to net income computed under GAAP, alternatives to net cash provided by operating activities computed under GAAP, or indicators of our ability to fund our cash needs.

Same-Store Pro Rata Rental Income

Same-store pro rata rental income is a non-GAAP financial measure that is intended to reflect the performance of our net leased properties. We define this as contractual rents from our leased properties. Same-store rental income excludes reimbursable tenant costs, amortization of intangibles and straight-line rent adjustments that are included in GAAP lease revenues. We present same-store rental income on a pro rata basis to account for our share of income related to unconsolidated joint ventures and noncontrolling interests. We believe that same-store pro rata rental income is a helpful measure that both investors and management can use to evaluate the financial performance of our leased properties. Same-store pro rata rental income should not be considered as an alternative to lease revenues as an indication of our financial performance or to cash flows as a measure of liquidity or our ability to fund all needs. The method by which we calculate and present same-store rental income and/or same-store pro rata rental income may not be directly comparable to the way other REITs present such metrics.

Pro Rata Cash NOI

Cash net operating income ("cash NOI") is a non-GAAP financial measure that is intended to reflect the performance of our net leased and operating properties. We define cash NOI as cash rents from our leased and operating properties less non-reimbursable property expenses. Cash NOI excludes amortization of intangibles and straight-line rent adjustments that are included in GAAP lease revenues. We present cash NOI on a pro rata basis ("pro rata cash NOI") to account for our share of income related to unconsolidated joint ventures and noncontrolling interests. We believe that pro rata cash NOI is a helpful measure that both investors and management can use to evaluate the financial performance of our leased and operating properties and it allows for comparison of our operating performance between periods and to other REITs. Pro rata cash NOI should not be considered as an alternative to net income as an indication of our financial performance or to cash flows as a measure of liquidity or our ability to fund all needs. The method by which we calculate and present cash NOI and/or pro rata cash NOI may not be directly comparable to the way other REITs present such metrics.

Normalized Pro Rata Cash NOI

Normalized pro rata cash NOI is pro rata cash NOI as defined above adjusted primarily to exclude our pro rata share of cash NOI from properties disposed of during the most recent quarter and to include a full quarter of pro rata cash NOI related to properties acquired or capital investments and commitments completed during the period, as applicable. If there is a rent abatement, we annualize the first monthly contractual base rent following the free rent period. We believe this measure provides a helpful representation of our net operating income from our in-place leased and operating properties.

Adjusted EBITDA

We believe that EBITDA is a useful supplemental measure to investors and analysts for assessing the performance of our business because (i) it removes the impact of our capital structure from our operating results and (ii) it is helpful when comparing our operating performance to that of companies in our industry without regard to such items, which can vary substantially from company to company. Adjusted EBITDA as disclosed represents EBITDA modified to include other adjustments to GAAP net income for certain non-cash charges, such as impairments, non-cash rent adjustments and unrealized gains and losses from our hedging activity. Additionally, we exclude gains and losses on sale of real estate, which are not considered fundamental attributes of our business plans and do not affect our overall long-term operating performance. We exclude these items from adjusted EBITDA because they are not the primary drivers in our decision-making process. Adjusted EBITDA reflects adjustments for unconsolidated partnerships and jointly owned investments. Adjusted EBITDA is also modified to reflect the pro forma impact of our investment and disposition activity, assuming all activity occurred at the beginning of the applicable period. This includes adjustments to recurring revenue and expenses related to properties acquired or disposed of, and capital investments and commitments completed, during the applicable period. Our assessment of our operations is focused on long-term sustainability and not on such non-cash and non-core items, which may cause short-term fluctuations in net income but have no impact on cash flows. We believe that adjusted EBITDA is a useful supplemental measure and representation of the performance of our business to investors and analysts, although it does not represent net income that is computed in accordance with GAAP. Accordingly, adjusted EBITDA should not be considered an alternative to net income or an indicator of our financial performance. EBITDA and adjusted EBITDA as calculated by us may not be comparable to similarly titled measures of other companies.

Other Metrics

Pro Rata Metrics

This supplemental package contains certain metrics prepared on a pro rata basis. We refer to these metrics as pro rata metrics. We have certain investments in which our economic ownership is less than 100%. On a full consolidation basis, we report 100% of the assets, liabilities, revenues and expenses of those investments that are deemed to be under our control or for which we are deemed to be the primary beneficiary, even if our ownership is less than 100%. Also, for all other jointly owned investments, which we do not control, we report our net investment and our net income or loss from that investment. On a pro rata basis, we generally present our proportionate share, based on our economic ownership of these jointly owned investments, of the assets, liabilities, revenues and expenses of those investments. Multiplying each of our jointly owned investments' financial statement line items by our percentage ownership and adding or subtracting those amounts from our totals, as applicable, may not accurately depict the legal and economic implications of holding an ownership interest of less than 100% in our jointly owned investments.

ABR

ABR represents contractual minimum annualized base rent for our net-leased properties and reflects exchange rates as of June 30, 2026. If there is a rent abatement, we annualize the first monthly contractual base rent following the free rent period. ABR is not applicable to operating properties and is presented on a pro rata basis.
