Note: All figures in this presentation are as of June 30, 2025, unless otherwise stated. Per share data is calculated based on weighted average shares outstanding during the period, unless otherwise noted. Dividends declared were derived by using the actual shares outstanding at the date of the relevant transactions. Opinions expressed reflect the current opinions of BXSL as of the date appearing in the materials only and are based on BXSL's opinions of the current market environment, which is subject to change. **Past performance does not predict future returns** and there can be no assurance that BXSL will achieve the same results in future quarters. There can be no assurances that any of the trends described throughout the materials will continue or will not reverse.

1) Based on the fair market value of the portfolio as of June 30, 2025. Debt investments, excluding non-accrual debt investments, are 99.8% floating rate and debt investments represent 99.2% of total investments based on the fair market value of the portfolio as of June 30, 2025.
2) Annualized net investment income ("NII") return is calculated as the 2Q'25 annualized net investment income per share divided by net asset value ("NAV") per share at the beginning of the period.
3) 2Q'25 Dividend yield is calculated as the 2Q'25 dividend ($0.77) annualized and divided by the ending NAV per share on June 30, 2025 ($27.33).
4) 2Q'25 Dividend coverage is calculated as 2Q'25 net investment income per share ($0.77) divided by 2Q'25 regular dividend per share ($0.77).
5) Average loan-to-value represents the net ratio of loan-to-value for each portfolio company, weighted based on the fair value of total applicable private debt investments. Loan-to-value is calculated as the current total net debt through each respective loan tranche divided by the estimated enterprise value of the portfolio company as of the most recently available information.
6) Includes all private debt investments for which fair value is determined by the Board of Trustees in conjunction with a third-party valuation firm and excludes quoted assets. Amounts are weighted on fair market value of each respective investment. Amounts were derived from the most recently available portfolio company financial statements, have not been independently verified by BXSL, and may reflect a normalized or adjusted amount. Accordingly, BXSL makes no representation or warranty in respect of this information. Private debt investments represent approximately 98% of the total debt portfolio based on fair value.
7) Based on non-accrual debt investments as a percentage of amortized cost of total investments. Based on the fair market value, investments on non-accrual represent 0.1% of total investments.

1) Total interest income, excluding payment in-kind interest income, dividend income, fee income and other income for the 3 months ended June 30, 2025 as a percentage of total investment income.
2) Based on non-accrual debt investments as a percentage of amortized cost of total investments. Based on the fair market value for the three months ended, BXSL investments on non-accrual represent 0.1% of total investments. Non-accrual rate is calculated for each BDC as the amortized cost of loans on non-accrual status divided by total amortized cost of the investment portfolio. Based on the fair market value of Traded BDC Peers, the weighted average non-accrual rate is 1.4%. The weighted average non-accrual rate at cost for Traded BDC peers is 3.0%. Traded BDC Peers is represented by the peer average non-accrual rate as of June 30, 2025 weighted by total NAV, except PSEC which is the latest available data. Non-accrual status of a given loan is self-reported by each BDC and is intended to indicate when there is reasonable doubt that said loan's principal or interest will be collected in full.
3) BXSL based on the fair market value of the total BXSL portfolio as of June 30, 2025. Peer BDCs' share of portfolio, by fair value, in first-lien investments excludes investments in unconsolidated joint ventures and loan funds. As of June 30, 2025, BXSL was not invested in any unconsolidated joint ventures or loan funds.
4) Peer "Management Fees" and "Incentive Fees" do not include the impact of waivers, lookbacks, step-ups, or hurdle rates. BXSL "Management Fees" and "Incentive Fees" do not include the fee waivers, which were in place through October 2023. Management Fees are charged on gross assets and Incentive Fees on pre-fee net investment income. Ranking does not include ties with other BXSL BDC Peers. BXSL rank assessment is based on gross asset value equivalent when BXSL BDC Peers do not charge on gross asset value.
5) Represented by annualized total operating expenses for the three months ended June 30, 2025, excluding interest expense and other financing costs, management fees and waivers, incentive fees and waivers, and excise tax, divided by average total net asset value in three months ended June 30, 2025. Represented by the Traded BDC Peer average gross general and administrative (G&A) expenses for the 3 months ended June 30, 2025 as a percentage of average total NAV for the 3 months ended June 30, 2025 (average of the NAV as of March 31, 2025 and June 30, 2025), except for PSEC which incorporates gross general and administrative (G&A) expenses for the 3 months ended March 31, 2025 as a percentage of average total NAV for the 3 months ended March 31, 2025 (average of the NAV as of December 31, 2024 and March 31, 2025). Gross G&A expenses is calculated as the sum of total expenses excluding interest expense, management and incentive fees, and excise tax. Gross G&A expenses excludes the impact of expense support and recoupment of expense support, if any. Gross G&A expenses include (but are not limited to), professional fees, board fees, organization costs, amortization of continuous offering costs and other general & administrative expenses.
6) All-in cost of debt is calculated by annualizing interest expense (including unused fees, amortization of debt issuance costs (including premiums and discounts), amortization of deferred financing costs, and the impact of the application of hedge accounting) divided by weighted average outstanding debt for the quarter.. All-in cost of debt calculated as interest expense divided by average debt principal outstanding for the 3 months ended June 30, 2025.
7) Total return is calculated as the change in net asset value ("NAV") per share during the period, plus dividends per share (assuming dividends and distributions are reinvested in accordance with the Company's dividend reinvestment plan), divided by the beginning NAV per share.
8) BXSL Traded BDC Peers consist of ARCC, BBDC, BCSF, CGBD, FSK, GBDC, GSBD, KBDC, MFIC, MSDL, NMFC, OBDC, OCSL, PSEC, and TSLX, which are each externally managed, exchange traded BDCs with a market capitalization greater than $1 billion as of December 31, 2024 based on public filings. Peer data as of June 30, 2025, except PSEC which is the latest available data.

High degree of shareholder alignment

3-year lookback	▪ 3-year lookback/total return hurdle on incentive fees on income ▪ Only eight other Traded BDC Peers have a lookback(1)
Fee alignment	▪ Blackstone Credit & Insurance does not scrape fees for itself from investment fees owed to BXSL(2); 100% of those fees earned are paid to BXSL rather than Blackstone Credit & Insurance
Dedicated BXCI operating team	▪ Operating team provides support to BXSL portfolio companies, which seeks to drive value creation and mitigate the risk the of investment
Blackstone employee alignment	▪ Blackstone and employees invested $91M in BXSL through the time of and in connection with the IPO, and since then executives have made open market purchases of BXSL shares(3)(4)

Note: As of June 30, 2025. **Past performance does not predict future returns.** There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid significant losses.

1) Defined as lookback and/or incentive fee cap. BXSL BDC Peers consist of ARCC, BBDC, BCSF, FSK, GBDC, GSBD, KBDC, MFIC, MSDL, NMFC, OBDC, OCSL, PSEC, and TSLX, which are each externally managed, exchange traded BDCs with a market capitalization greater than $1 billion as of December 31, 2024, based on public filings. Peer data as of June 30, 2025, except for PSEC which is the latest available data. Sources: company SEC filings.
2) Blackstone Securities Partners L.P. may earn broker-dealer or similar fees paid by third-party investors in connection with transactions in which BXSL participates.
3) Since the completion of the initial public offering, BXSL executives have made open market purchases of BXSL stock totaling more than $3M as of June 30, 2025.
4) Blackstone and employees are under no obligation to maintain a minimum ownership of BXSL shares and may from time to time dispose of BXSL shares in privately negotiated transactions, pursuant to Rule 144 or in a registered offering.

Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied on as investment advice.
3) Available liquidity is comprised of cash and cash equivalents plus the amount available to borrow across all revolving credit facilities, net of limitations related to each respective credit facility's borrowing base. As of June 30, 2025, $2.8 billion of capacity is undrawn and $2.7 billion is available to borrow.
4) Interest rate is SOFR + 1.525% up to + 1.775% (+ 10bps CSA) depending on borrowing base availability at the time of borrowing.
5) Weighted average interest rate is calculated by annualizing interest expense (including unused fees, amortization of debt issuance costs (including premiums and discounts), and the impact of the application of hedge accounting) divided by weighted average outstanding debt for the quarter. Total all-in cost of debt (including unused fees, amortization of debt issuance costs (including premiums and discounts), amortization of deferred financing costs, and the impact of the application of hedge accounting) was 5.10% during the quarter.

1) BXSL Traded BDC Peers consist of ARCC, BBDC, BCSF, FSK, GBDC, GSBD, KBDC, MFIC, MSDL, NMFC, OBDC, OCSL, PSEC, and TSLX, which are each externally managed, exchange traded BDCs with a market capitalization greater than $1 billion as of December 31, 2024, based on public filings. Sources: Company filings as of June 30, 2025, except PSEC which is latest available data. BXSL fee waivers were in place through October 2023. 0.75% management fee increased to 1.0% and 15% incentive fee increased to 17.5%.
2) 2Q'25 dividend coverage is calculated as 2Q'25 net investment income per share ($0.77) divided by 2Q'25 regular dividend per share ($0.77).
3) Represents returns calculated from BXSL inception to 2Q'25. Total return is calculated as the change in NAV per share during the period, plus dividends per share (assuming dividends and distributions are reinvested in accordance with the Company's dividend reinvestment plan), divided by the beginning NAV per share.

ILLUSTRATIVE CURRENT TOTAL VALUE BRIDGE[1]

Note: Data is as of June 30, 2025, unless otherwise indicated. The above Total Value Bridge is an illustrative example of the total value and market price premium to NAV of one share of BXSL held from inception through August 25, 2025, assuming no participation in a dividend reinvestment program and no additional purchases. Various factors may impact results above including, but not limited to, time of investment, dividends reinvested, and time of liquidation. **Past performance does not predict future returns. Similar results are not guaranteed. For illustrative purposes only.** There can be no assurance that any Blackstone product or investment will achieve its objectives or avoid substantial losses.

1) NAV per share at inception, assuming purchase of one share.
2) Cumulative dividends paid with respect to one share, provided the share is held since inception. Cumulative dividends paid is inclusive of the 2Q'25 declared dividend, paid in 3Q'25.
3) Indicates appreciation of NAV since inception ($25.00 per share) with respect to one share.
4) Total value of share includes the NAV at inception, cumulative dividends paid and NAV appreciation with respect to one share.
5) Market price is the price at which investors may sell shares of the Fund. Net asset value per share (NAV) represents the total value of all assets held by the Fund (minus its total liabilities), divided by the total number of common shares outstanding. Market price may be greater than (at a premium to) or less than (at a discount to) NAV and is largely determined by the demand for and supply of the Fund's shares. Demand for the Fund's shares is affected by market forces, including, but not limited to investor sentiment. Supply is the number of shares offered for sale by existing shareholders (who are also affected by the same factors that drive demand) and/or newly offered.

Source: The Lincoln International Private Market Database ("Lincoln database"), compiled by the Lincoln Valuations & Opinions Group ("VOG"), is a quarterly compilation of over 4,750 portfolio companies from a wide assortment of private equity investors and non-bank lenders. Most of these companies are highly levered with debt financing provided via the direct lending market and, in many instances, Lincoln estimates the fair value of at least one senior debt security in the portfolio companies' capital structures. In assessing the data, VOG relies on commonly accepted valuation methodologies and each valuation analysis is unique and conforms to fair value accounting principles. Notes to Blackstone Secured Lending Fund Executive Summary

Data as of June 30, 2025. For illustrative purposes only.

1) Assets under management ("AUM") is estimated and unaudited as of June 30, 2025. The AUM for Blackstone, any specific fund, account or investment strategy or business unit presented in this Presentation may differ from any comparable AUM disclosure in other non-public or public sources (including public regulatory filings) due to, among other factors, different methods for reporting net asset value and capital commitment, differences in categorizing certain funds and accounts within specific investment strategies, or regulatory requirements. AUM includes non-fee-paying assets, including co-investments and Blackstone's GP and side by side commitments, as applicable. Private Wealth Channel AUM represents assets under management from the private wealth channel across Blackstone funds and thus overlaps with AUM reported for various business units. All figures are subject to change.

2) Based on Blackstone analysis of company earnings presentations and calls, as of June 30, 2025 or latest publicly available data.

3) AUM is estimated and unaudited as of June 30, 2025. Credit & Insurance AUM is a combined figure that includes Blackstone Credit ("BXC"), Asset Based Finance, and Blackstone Insurance Solutions ("BIS") businesses. The AUM for Blackstone, Blackstone Credit & Insurance or any specific fund, account or investment strategy presented in this Presentation may differ from any comparable AUM disclosure in other non-public or public sources (including public regulatory filings) due to, among other factors, methods of net asset value and capital commitment reporting, differences in categorizing certain funds and accounts within specific investment strategies and exclusion of certain funds and accounts, or any part of net asset value or capital commitment thereof, from the related AUM calculations. Certain of these differences are in some cases required by applicable regulation. All figures are subject to change.

4) Blackstone Credit analysis of company earnings presentations and calls, as of June 30, 2025, and latest publicly available da ta published by Blackstone Credit & Insurance's peers.

5) As of June 30, 2025. The North America Direct Lending track record represents U.S. and Canada first lien and unitranche debt, or non-U.S. first lien and unitranche debt where >50% of the revenue is generated from the U.S. (which may be secured by the applicable borrower's assets and/or equity) transactions in companies that were originated or anchored by certain Blackstone Credit & Insurance managed, advised or sub-advised funds (including the Fund, Blackstone Credit & Insurance managed mezzanine funds and Blackstone Credit & Insurance sub-advised BDCs, as well as certain other Blackstone Credit & Insurance managed funds and accounts) and, with respect to certain transactions, investments allocated to affiliates of Blackstone Credit & Insurance, which may be sold to Blackstone Credit & Insurance managed funds or accounts in the future (the "North America Direct Lending track record"). The track record includes investments for periods prior to December 31, 2017, in BDCs that were sub-advised by Blackstone Credit & Insurance on a non-discretionary basis until April 9, 2018 (the "Sub-Advised Investments"). With respect to certain transactions, the North America Direct Lending track record includes free equity and/or warrants that accompanied the debt financings, as well as any loans or securities into which the applicable first lien and unitranche debt may have been restructured subsequent to Blackstone Credit & Insurance's initial investment. The North America Direct Lending track record excludes (i) broadly syndicated, mezzanine, second lien and equity (other than the aforementioned free equity and/or warrants or securities issued upon restructuring) transactions, among others and (ii) transactions where Blackstone Credit & Insurance's invested capital (net of transactions fees) was under $25 million.

6) As of June 30, 2025. The annualized loss rate represents annualized net losses for substantially realized investments. Whether an investment is substantially realized is determined in the manager's discretion. Investments are included in the loss rate if (1) a payment was missed, (2) bankruptcy was declared, (3) there was a restructuring, or (4) it was realized with a total multiple on invested capital less than 1.0x. Net losses include all profits and losses associated with these investments, including interest payments received. Net losses are represented in the year the investment is substantially realized and excludes all losses associated with unrealized investments. The annualized net loss rate is the net losses divided by the average annual remaining invested capital within the platform. Investments sourced by Blackstone Credit & Insurance for the Sub-Advised Investments did, in certain cases, experience defaults and losses after Blackstone Credit & Insurance was no longer sub-adviser, and such defaults and losses are not included in the rates provided. Prior to December 31, 2022, the methodology used by the North America Direct Lending track record for calculating the platform's average annual loss rate was based on net loss of principal resulting only from payment defaults in the year of default which would exclude interest payments. Past performance does not predict future returns, and there can be no assurance that Blackstone Credit & Insurance will achieve comparable results or that any entity or account managed by or advised by Blackstone Credit & Insurance will be able to implement its investment strategy or achieve its investment objectives.

7) Investments at fair market value.

8) "Management Fees" and "Incentive Fees" do not include waivers, lookbacks, step ups or hurdle rates, including BXSL's previous fee waivers, which were in place through October 2023. BXSL's 0.75% management fee increased to 1.00% and its 15.0% incentive fee increased to 17.5%.

9) The weighted average peer comparisons presented herein are to ARCC, BBDC, BCSF, FSK, GBDC, GSBD, KBDC MFIC, MSDL, NMFC, OBDC, OCSL, PSEC, and TSLX, which are each externally managed, publicly traded BDCs with a market capitalization greater than $1 billion as of December 31, 2024 based on public filings. Sources: Company filings as of June 30, 2025, except PSEC which is latest available data.

10) Blackstone Securities Partners L.P. ("BSP") may earn broker-dealer or similar fees paid by third-party investors in connection with transactions in which BXSL participates.

Notes to Powerful Credit Platform

Private Credit returns include mezzanine lending funds and middle market direct lending funds (including our BDCs), stressed/distressed strategies (including stressed/distressed funds and credit alpha strategies) and energy strategies. Liquid Credit returns include CLOs, closed ended funds, open-ended funds and separately managed accounts. Only fee-earning funds exceeding $100 million of fair value at the beginning of each respective quarter-end are included. Funds in liquidation, funds investing primarily in investment grade corporate credit and asset-based finance are excluded. Blackstone funds that were contributed to Blackstone Credit as part of Blackstone's acquisition of Blackstone Credit, formerly known as GSO, in March 2008 and the pre-acquisition date performance for funds and vehicles acquired by Blackstone Credit subsequent to March 2008, are also excluded.

AUM is estimated and unaudited as of June 30, 2025. The AUM for Blackstone, any specific fund, account or investment strategy or business unit presented in this Presentation may differ from any comparable AUM disclosure in other non-public or public sources (including public regulatory filings) due to, among other factors, different methods for reporting net asset value and capital commitment, differences in categorizing certain funds and accounts within specific investment strategies, or regulatory requirements. AUM includes non-fee-paying assets, including co-investments and Blackstone's GP and side by side commitments, as applicable. Private Wealth Channel AUM represents assets under management from the private wealth channel across Blackstone funds and thus overlaps with AUM reported for various business units. All figures are subject to change.

1) Private Corporate Credit includes funds and products in Capital Solutions and Credit Alpha strategies, and assets managed for certain strategic insurance partnerships, in addition to the strategies Senior Direct Lending and Opportunistic Credit. Private Corporate Credit inception date is 2006.
2) Liquid Corporate Credit inception date is 1998.
3) Infrastructure and Asset Based Credit inception date is 2015. Relevant fund commitments included in this figure are as of August 8, 2023 to reflect final closing amount. Analysis based on universe of private credit funds closed since 2006 with fund sizes of $7B or greater..
8) Largest real estate debt fund based on BREDS IV fund size, per PERE historical fundraising data as of March 31, 2025.

Notes to BXCI Value Creation

1) This number represents the amount of introductions across Blackstone Credit & Insurance portfolio companies and is not limited to introductions made to BXSL portfolio companies, which may have a lower participation rate or be significantly lower. "Active Participants" mean (i) a company that has an ongoing project and / or (ii) a company that has completed a project but may not currently have a project in effect. All Blackstone Credit & Insurance portfolio companies for which Blackstone Credit & Insurance originates loans are eligible to receive services from the Value Creation Program. The Value Creation Team generally proactively contacts sponsors and portfolio companies if the company satisfies certain objective criteria established by the Value Creation Team. When Blackstone Credit & Insurance exits the position, the portfolio company is no longer eligible to receive services from the Value Creation Program.

2) Numbers presented are calculated since inception of the Value Creation Program in 2016. Figures presented are based on data reported by portfolio companies and assets and not from financial statements of portfolio companies. While the data reported by portfolio companies and assets is believed to be reliable for purposes used herein, it is subject to change, and Blackstone has not fully verified, and does not assume responsibility for, the accuracy or completeness of this information.

3) Represents the sum of (a) estimated identified total cost reduction opportunities at the time cost is benchmarked with portfolio companies (see footnote 5 for additional details) multiplied by the average enterprise value multiple across the portfolio, by finding the mean of the enterprise value multiples at time of BXCI's initial investments, and (b) total revenue from introductions across Blackstone portfolio companies multiplied by EBITDA margin and multiple at investment of the portfolio company, with the exception of significantly longer term projects (projects that are greater than or equal to 10 years in project duration) in which total revenue is multiplied by EBITDA margin. Estimates assume revenue enhancements and costs savings directly improve enterprise value or EBITDA margins and that such revenue gains or cost savings will endure for the period of time implied by multiples.

4) Revenue generated represents the sum of total contract values where the contract/relationship between Blackstone portfolio companies was facilitated by the Value Creation Team. There is no guarantee that portfolio companies in fact will realize all revenue enhancement opportunities. Revenue estimates are inherently unpredictable and macroeconomic factors, counterparty performance, and other factors beyond Blackstone's control may cause actual results to vary materially from the estimates.

5) Represents estimated identified total cost reduction at the time of the cost savings proposal. This figure represents the sum of estimated cost reduction opportunities identified by the portfolio companies and have not been verified by Blackstone. In certain instances, portfolio companies provide estimated annual cost savings that is assumed to endure for the length of the contract. Estimated cost savings are inherently unpredictable, portfolio companies may not be contractually obligated to implement savings opportunities, and Blackstone has not verified that such savings opportunities have been implemented. Estimated cost reduction opportunities include opportunities for portfolio companies that no longer be an active Blackstone portfolio company. Estimated cost savings has not been reduced by potential re-allocation of savings to other expenditures.

Notes to Key Highlights

Note: Data is as of June 30, 2025, unless otherwise indicated. This is not an offer or sale of any security or investment product. **Past performance does not predict future returns**. There can be no assurance that any Blackstone product or investment will achieve its objectives or avoid substantial losses.

1) Represents one year period ended June 30, 2025. Total return is calculated as the change in NAV per share during the period, plus dividends per share (assuming dividends and distributions are reinvested in accordance with the Company's dividend reinvestment plan), divided by the beginning NAV per share.

2) Traded BDC Peers consist of ARCC, BBDC, BCSF, FSK, GBDC, GSBD, KBDC, MFIC, MSDL, NMFC, OBDC, OCSL, PSEC, and TSLX, which are each externally managed, exchange traded BDCs with a market capitalization greater than $1 billion as of December 31, 2024, based on public filings. Source: Company filings as of June 30, 2025, except for PSEC which is the latest available data. Data for Traded BDC Peers presented as weighted average quarterly results.

3) 2Q'25 dividend yield is calculated as the 2Q'25 dividend ($0.77) annualized and divided by the ending NAV per share on June 30, 2025 ($27.33).

4) BXSL based on the fair market value of the total BXSL portfolio as of June 30, 2025. Peer BDCs' share of portfolio, by fair value, in first-lien investments excludes investments in unconsolidated joint ventures and loan funds. Source: Company filings as of June 30, 2025, except for PSEC which is the latest available data. As of June 30, 2025, BXSL was not invested in any unconsolidated joint ventures or loan funds.

5) Based on non-accrual debt investments as a percentage of amortized cost of total investments. Based on the fair market value, investments on non-accrual represent 0.1% of total investments for BXSL. Based on the fair market value of Traded BDC Peers, the non-accrual rate is 1.4%. Source: Company filings as of June 30, 2025, except for PSEC which is the latest available data.

Used with permission. Third party use is at user's own risk. BXSL statistics as of June 30, 2025, and, other than average LTM EBITDA growth which excludes private debt investments that funded after June 30, 2024, includes all private debt investments for which fair value is determined by BXSL's Board in conjunction with a third-party valuation firm (thus, excluding quoted assets). BXSL amounts are weighted on fair market value of each respective investment. BXSL amounts were derived from the most recently available portfolio company financial statements (which are generally one quarter in arrears), have not been independently verified by BXSL, and may reflect a normalized or adjusted amount. Accordingly, BXSL makes no representation or warranty in respect of this information. EBITDA is a non-GAAP financial measure. For a particular portfolio company, EBITDA is generally defined as net income before net interest expense, income tax expense, depreciation, and amortization over the last twelve months ("LTM"). EBITDA growth year-over-year may reflect some inorganic growth due to mergers and acquisitions (M&A). Average LTM EBITDA growth for BXSL excludes companies that grew EBITDA over 100% year-over-year due to M&A. EBITDA margin is the ratio of EBITDA-to-revenue.

7) Average LTM EBITDA of issuer companies of loans in the Lincoln database as of 2Q'25.

8) As of June 30, 2025. Average LTM EBITDA growth for BXSL excludes companies that grew EBITDA over 100% year-over-year due to M&A.

9) As of June 30, 2025. Average LTM EBITDA growth year-over-year of issuer companies of loans in the Lincoln database.

10) BXSL "Management Fees" and "Incentive Fees" do not include the previous fee waivers, which were in place for two years from the date of the initial public offering until October 28, 2023. Management Fees are charged on gross assets and Incentive Fees on pre-fee net investment income.

11) Peer "Management Fees" and "Incentive Fees" do not include the impact of waivers, lookbacks, step-ups, or hurdle rates.

Risk Factors and Important Disclosure Information

BLACKSTONE SECURED LENDING FUND ("BXSL" OR THE "FUND") - RISK AND REWARD DISCLOSURE

Set out below is a summary of the rewards and associated risks of an investment in the Fund. This summary does not purport to be a comprehensive statement of all such rewards and risks and investors should refer to the private placement memorandum of the Fund before making a final investment decision. Please see the "Important Disclosure Information" section.

REWARDS	RISKS
Awards. This presentation refers to awards and rankings issued to Blackstone, our investments and/or our investment professionals.	**Awards.** Any awards or rankings referred to are provided solely for informational purposes and should not be construed as or relied upon as an indication of future performance or activity.
Blackstone and BXCI's Scale, Expertise and Value Creation. Blackstone's brand, operational expertise and market positioning coupled with BXCI's powerful network and deep in-house sector expertise with senior secured private credit strategies means that we can be well positioned as a partner of choice and aim to enhance value for our investors and portfolio companies.	**Blackstone and BXCI's Scale, Expertise and Value Creation.** There is no assurance that any Blackstone product, investment or portfolio company will achieve their objectives or avoid significant losses. Sharing of expertise is subject to Blackstone's policies and procedures regarding the management of conflicts of interest and information walls. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that the Fund will be able to locate and consummate investments, or fully invest its committed capital, that satisfy its objectives.
Case Studies. This material includes case studies and/or transaction summaries demonstrating the status of select investments following their acquisition by a Blackstone fund and implementation of the Fund's investment strategy. Blackstone believes it may deliver similar types of enhancements to future assets that it acquires.	**Case Studies.** Case studies and examples are presented for illustrative purposes only, and may not be representative of all transactions of a given type or of investments generally. There can be no assurance that BXSL will be able to make comparable or equally successful investments in the future or obtain comparable results. These examples do not constitute investment advice or recommendation of past investments.
Deal Flow Flexibility, Pipeline and Powerful Origination Engine. Our portfolio is not dependent on federal or local governments for deal flow, given our focus on a wide product slate covering many European sponsors and advisors. The material refers to indicative deals in the BXSL pipeline, illustrating our outlook on potentially beneficial investment opportunities.	**Deal Flow Flexibility, Pipeline and Powerful Origination Engine.**There is no assurance that current expectations for the portfolio will hold, that BXSL or any of its investments will meet their objectives or avoid substantial losses. Pipeline estimations are inherently uncertain and transactions, whether committed or pending, may not successfully close as expected or at all.
Diversification. The Fund is Blackstone's dedicated North America Direct Lending platform is focused on originating senior secured loans to U.S. companies, and its portfolio is diversified primarily across companies in our targeted sectors and geographies.	**Diversification.** Diversification does not ensure a profit or protect against losses.
Estimates / Forward-Looking Statements. This material contains certain forward-looking statements and their underlying assumptions and analysis, in order to offer BXCI's expectations for future developments and events.	**Estimates / Forward-Looking Statements.** Estimates and other forward-looking information are based on assumptions that Blackstone believes to be reasonable as of the date hereof. Future results are inherently uncertain and subject to many important factors.
Key Personnel. We believe that BXSL's dedicated global team's collective experience with European direct lending strategies forms a strong operating intervention platform that we mobilize on an integrated basis to lead, grow, run and defend our business.	**Key Personnel.** Certain Blackstone professionals will not be dedicated to the management and operation of BXSL and/or they may perform work for other Blackstone business units and, therefore, conflicts are expected to arise in their time allocation. The involvement and role of the professionals may vary, including having no involvement at all. There can be no assurance that such professionals will be associated with the Fund throughout its life. In the event of death, disability or departure of key Blackstone professionals, business and Fund performance may be adversely affected
Leverage. The Fund may employ leverage or borrowings to advance investments or other activities. Leverage may at certain stages enhance returns from investments to the extent such returns exceed the costs of borrowings.	**Leverage.** The use of leverage or borrowings magnifies investment, market and certain other risks and may be significant. Leverage can increase losses or gains and borrowing fees may reduce fund returns.
Returns and Past Performance. BXSL has delivered strong performance, including historically stable, well-covered dividends since inception. Blackstone believes that the Fund can continue to perform to a similar standard.	**Returns and Past Performance. Past performance does not predict future returns.** There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses, or that any downside control features will be successful. Distributions are not guaranteed.
Risk Management and capital protection. The Fund maintains a robust investment process to manage risk, protect capital and optimize returns for our investors and portfolio companies. The strategy has evolved over time to have increased downside protection and diversification.	**Risk Management and capital protection.** Risk management seeks to mitigate risk and protect capital but does not reduce or eliminate risk and does not protect against losses. **Capital is at risk.** There can be no assurance that any downside control features will be successful.
Themes and Trends. For Blackstone, recognizing significant market trends and good neighbourhoods supported by secular tailwinds is essential to finding quality investment opportunities and achieving strong performance.	**Themes and Trends.** There is no assurance that BXSL will find or close on any opportunities relating to themes or current market trends identified herein or that future initiatives will occur as expected or at all. Trends may not continue and may reverse.

OTHER RISK FACTORS

A detailed summary of the risks to which the Fund is subject is available in the Fund's Offering Documents. Capitalized terms used herein but not otherwise defined have the meanings set forth in the "Important Disclosure Information" section or in the Fund's Offering Documents.

Conflicts of Interest. There may be occasions when the Fund's general partner and/or the investment advisor, and their affiliates will encounter potential conflicts of interest in connection with the Fund's activities including, without limitation, the allocation of investment opportunities, relationships with Blackstone's and its affiliates' investment banking and advisory clients, and the diverse interests of the Fund's limited partner group. There can be no assurance that Blackstone will identify, mitigate, or resolve all conflicts of interest in a manner that is favorable to the Fund.

Exchange Rate. Currency fluctuations may have an adverse effect on the value, price, income or costs of the product which may increase or decrease as a result of changes in exchange rates.

Forward-Looking Statements. Certain information contained in the Materials constitutes "forward-looking statements," which can be identified by the use of forward-looking terminology or the negatives thereof. These may include statements about plans, objectives and expectations with respect to future operations. Such forward-looking statements are inherently uncertain and there are or may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone believes these factors include, but are not limited to, those described under the section entitled "Risk Factors" in its Annual Report on Form 10-K for the most recent fiscal year, and any such updated factors included in its periodic filings with the Securities and Exchange Commission, which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in the Materials and in the filings. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that the Fund will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that the Fund will be able to fully invest its committed capital. There is no guarantee that investment opportunities will be allocated to the Fund and/or that the activities of Blackstone's other funds will not adversely affect the interests of the Fund.

Illiquidity and Variable Valuation. There is no organized secondary market for investors' interests in the Fund nor is there an organized market for which to sell the Fund's underlying investments, and none is expected to develop. Further, the valuation of the Fund's investments will be difficult, may be based on imperfect information, and is subject to inherent uncertainties. The resulting values may differ from values that would have been determined had a ready market existed for such investments, from values placed on such investments by other investors, and from prices at which such investments may ultimately be sold.

Inflation and Supply Chain Risk. Economic activity has continued to accelerate across sectors and regions. Nevertheless, due to global supply chain issues, a rise in energy prices, strong consumer demand as economies continue to reopen and other factors, inflation has accelerated in the U.S. and globally. We believe inflation is likely to continue in the near to medium-term, particularly in the U.S., with the possibility that monetary policy may tighten in response. Persistent inflationary pressures and supply chain issues could affect our portfolio companies profit margins. In addition, the inflation-adjusted value of the principal on our loan investments could decrease.

Leverage; Borrowings Under a Subscription Facility. The Fund may use leverage, and the Fund may utilize borrowings from Blackstone Inc. or under its subscription-based credit facility in advance of or in lieu of receiving investors' capital contributions. The use of leverage or borrowings magnifies investment, market and certain other risks and may be significant. The Fund's performance may be affected by the availability and terms of any leverage as such leverage will enhance returns from investments to the extent such returns exceed the costs of borrowings by the Fund. The leveraged capital structure of such assets will increase their exposure to certain factors such as rising interest rates, downturns in the economy, or deterioration in the financial condition of such assets or industry. In the event an investment cannot generate adequate cash flow to meet its debt service, the Fund may suffer a partial or total loss of capital invested in the investment, which may adversely affect the returns of the Fund. In the case of borrowings used in advance of or in lieu of receiving investors' capital contributions, such use will result in higher or lower reported returns than if investors' capital had been contributed at the inception of an investment because calculations of returns to investors are based on the payment date of investors' capital contributions. In addition, because the Fund will pay all expenses, including interest, associated with the use of any leverage or borrowings, investors would indirectly bear such costs.

Material, Non-Public Information. In connection with other activities of Blackstone, certain Blackstone personnel may acquire confidential or material non-public information or be restricted from initiating transactions in certain securities, including on the Fund's behalf. As such, the Fund may not be able to initiate a transaction or sell an investment. In addition, policies and procedures maintained by Blackstone to deter the inappropriate sharing of material non-public information may limit the ability of Blackstone personnel to share information with personnel in Blackstone's other business groups, which may ultimately reduce the positive synergies expected to be realized by the Fund as part of the broader Blackstone investment platform.

OTHER RISK FACTORS (CONT'D)

No Assurance of Investment Return. An investment in the Fund is speculative and involves a high degree of risk. There can be no assurance that the Fund will achieve comparable results, implement its investment strategy, achieve its objectives, or avoid substantial losses, or that any expected returns will be met (or that the returns will be commensurate with the risks of investing in the type of transactions described herein). The portfolio companies in which the Fund may invest (directly or indirectly) are speculative investments and will be subject to significant business and financial risks. The Fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. The Fund will incur costs which will impact the return throughout the life of the Fund. Fund costs may include, for example: fund management; fund administration and servicing; legal; compliance; record-keeping; certain kinds of distribution charges; and other operating costs. The Fund's fees and expenses may offset or exceed its profits. A more detailed description of relevant fund costs and expenses is included in the Fund's offering documents.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recessions, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

IMPORTANT DISCLOSURE INFORMATION

This presentation (together with any attachments, appendices, and related materials, the "Materials") is provided on a confidential basis for informational due diligence purposes only and is not, and may not be relied on in any manner as legal, tax, investment, accounting or other advice or as an offer to sell, or a solicitation of an offer to buy, any security or instrument in or to participate in any trading strategy with Blackstone Private Credit Strategies LLC or its affiliates in the credit, asset-based finance and insurance asset management business unit of Blackstone Inc. ("Blackstone"), (collectively, "Blackstone Credit & Insurance") or any fund or separately managed account currently or to be sponsored, managed, advised or sub-advised or pursued by Blackstone Credit & Insurance (each, a "Fund"), nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. If such offer is made, it will only be made by means of prospectus (collectively with additional offering documents, the "Offering Documents"), which would contain material information (including certain risks of investing in a Fund) not contained in the Materials and which would supersede and qualify in its entirety the information set forth in the Materials. Any decision to invest in a Fund should be made after reviewing the Offering Documents of such Fund, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting and tax advisers to make an independent determination of the suitability and consequences of an investment in such Fund. In the event that the descriptions or terms described herein are inconsistent with or contrary to the descriptions in or terms of the Offering Documents, the Offering Documents shall control. None of Blackstone, its funds, nor any of their affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and nothing contained herein should be relied upon as a promise or representation as to past or future performance of a Fund or any other entity, transaction, or investment. Unless otherwise noted, all information is as of June 30, 2025 (the "Reporting Date"), unless otherwise indicated and may change materially in the future.

In considering any investment performance information contained in the Materials, **prospective and current investors should bear in mind that past or estimated performance does not predict future returns** and there can be no assurance that a Fund will achieve comparable results, implement its investment strategy, achieve its objectives or avoid substantial losses or that any expected returns will be met.

Adviser Discretion. These Materials contain information relating to transactions consummated by certain funds sub-advised by Blackstone Credit & Insurance over which Blackstone Credit & Insurance does not have investment discretion. The applicable non-Blackstone Credit & Insurance entities that act as advisers to such funds retain investment discretion over their investment programs. Thus, while Blackstone Credit & Insurance proposes investment opportunities to such advisers for investment, such advisers have investment discretion to approve or reject such proposed investment opportunities.

Blackstone Proprietary Data. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets. Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

ERISA Fiduciary Disclosure. The foregoing information has not been provided in a fiduciary capacity under ERISA, and it is not intended to be, and should not be considered as, impartial investment advice.

Images. The Materials contain select images of certain investments that are provided for illustrative purposes only and may not be representative of an entire asset or portfolio or of a Fund's entire portfolio. Such images may be digital renderings of investments rather than actual photos.

The **Lincoln International Private Market Database**, compiled by the Lincoln Valuations & Opinions Group ("VOG"), is a quarterly compilation of over 4,750 portfolio companies from a wide assortment of private equity investors and non-bank lenders. Most of these companies are highly levered with debt financing provided via the direct lending market and in many instances, Lincoln estimates the fair value of at least one senior debt security in the portfolio companies' capital structures. In assessing the data, VOG relies on commonly accepted valuation methodologies and each valuation analysis is unique and conforms to fair value accounting principles. The analyses are then vetted by auditors, fund managers and their board of directors, as well as other regulators. © 2024 Lincoln Partners Advisors LLC. All rights reserved. Used with permission. Third party use is at user's own risk.

Opinions. Opinions expressed reflect the current opinions of Blackstone as of the date appearing in the Materials only and are based on Blackstone's opinions of the current market environment, which is subject to change. Certain information contained in the Materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice.

Use of Leverage. BXSL intends to borrow money. If returns on such investment exceed the costs of borrowing, investor returns will be enhanced. However, if returns do not exceed the costs of borrowing, BXSL performance will be depressed. This includes the potential for BXSL to suffer greater losses than it otherwise would have. The effect of leverage is that any losses will be magnified. The use of leverage involves a high degree of financial risk and will increase BXSL's exposure to adverse economic factors such as rising interest rates, downturns in the economy or deteriorations in the condition of the Investments. This leverage may also subject BXSL and its Investments to restrictive financial and operating covenants, which may limit flexibility in responding to changing business and economic conditions. For example, leveraged entities may be subject to restrictions on making interest payments and other distributions.

IMPORTANT DISCLOSURE INFORMATION (CONT'D)

Performance Calculations. Past performance does not predict future returns, and there can be no assurance that such returns will be achieved, that the Fund will achieve comparable results or that the Fund will be able to implement its investment strategy or achieve its investment objectives or target portfolio construction. Target returns are hypothetical and are neither guarantees nor predictions or estimates of future performance. Future performance indications and financial market scenarios are no guarantee of current or future performance. Fund performance shown for the performance period reflects the Fund's return since inception and is based on the actual management fees and expenses paid by Fund investors as a whole. Performance for individual investors will vary (in some cases materially) from the performance stated herein as a result of the management fees paid or not paid by certain investors; the investor servicing fees paid by certain investors, as applicable; the timing of their investment; and/or their individual participation in Fund investments. The management fees paid by certain investors during the performance period are materially different from those paid by other investors during the performance period due to, among other factors, fee holidays for limited partners subscribing to a first close, arrangements whereby an investor's fees are calculated based on invested rather than committed capital, or fee breaks for investors committing at or above a specified capital amount. In addition, certain investors may pay investor servicing fees to the manager during the performance period. Finally, Fund performance shown may not reflect returns experienced by any particular investor in the Fund since actual returns to investors depend on when each investor invested in the Fund.

In relation to UK investors, this document may only be distributed and shares, interests or units in the relevant fund may only be offered to and are only directed at (a) professional investors within the meaning of Article 2(1) of the UK Alternative Investment Fund Managers Regulations 2013; and (b) others to whom this document may otherwise be lawfully distributed and the shares, interests or units may otherwise be lawfully offered in the UK.

So far as relevant, the only clients of BELL are its affiliates. No investor or prospective investor is a client of BELL and BELL is not responsible for providing them with the protections afforded to clients. Investors and prospective investors should take their own independent investment, tax and legal advice as they think fit. No person representing BELL is entitled to lead investors to believe otherwise.

In relation to investors in the European Economic Area ("EEA"), this document may only be distributed and shares, interests or units in the relevant fund may only be offered or placed in a Member State to the extent that (1) the fund is permitted to be marketed in the relevant Member State in accordance with the Alternative Investment Fund Managers Directive (Directive (2011/61/EU)) (the "AIFMD"), including only to investors who are Professional Clients for the purposes of the European Union Markets in Financial Instruments Directive (Directive 2014/65/EU) (as implemented into the local law/regulation of the relevant Member State); or (2) this document may otherwise be lawfully distributed and the shares, interests or units may otherwise be lawfully offered in that Member State (including at the exclusive initiative of the investor).

Termination of marketing arrangements. Please note that the alternative investment fund manager of the Fund may decide to terminate the arrangements made for the marketing of the Fund in one or more EU member states pursuant to the Fund's marketing passport in accordance with the procedure provided for under the laws that implement Article 93a of Directive 2009/65/EC (the UCITS Directive) or Article 32a of Directive 2011/61/EU (the AIFMD Directive) as applicable.

This communication is intended only for the person to whom it has been sent, is strictly confidential and must not be distributed onward.

This communication does not constitute a solicitation to buy any security or instrument, or a solicitation of interest in any Blackstone fund, account or strategy. The content of this communication should not be construed as legal, tax or investment advice.

Switzerland. BXSL (the "Fund") has not been approved for offering to non-qualified investors by the Swiss Financial Market Supervisory Authority FINMA (FINMA) pursuant to article 120(1) of the Swiss Federal Act on Collective Investment Schemes (CISA) and no representative or paying agent in Switzerland has been appointed pursuant to article 120(4) CISA. Accordingly, the units of the Fund may only be offered (within the meaning of article 3(g) of the Swiss Federal Act on Financial Services (FinSA)) or marketed (within the meaning of article 127a of the Collective Investment Schemes Ordinance), directly or indirectly, in or from Switzerland and the Offering Memorandum and any other offering documents relating to the Fund may only be made available in or from Switzerland to professional clients as defined in article 4(3) or private clients within the meaning of article 4(2) FinSA who are in a long-standing investment advisory- or investment management relationship with a regulated financial intermediary and who did not declare that they shall not be treated as qualified investors in accordance with article 10 (3ter) CISA. Investors in the units of the Fund do not benefit from the specific investor protection provided by CISA and the supervision by FINMA in connection with the approval for offering or the appointment of a representative and paying agent in Switzerland.
Furthermore, this document and any other marketing or offering documents relating to the Fund may be shared with non-discretionary investment advisors in Switzerland for their information purposes only and without targeting specific investors advised by such investment advisors.

Should such a qualified investor be advised by a non-discretionary investment advisor in Switzerland, the investor may instruct the distributor to forward this document or any other marketing or offering documents relating to the Fund directly to that investment advisor.
Should this document or any other marketing or offering documents relating to the Fund be distributed to an investor outside Switzerland and should such investor be advised by a non-discretionary investment advisor in Switzerland, then the investor may instruct the distributor to also forward this document or any other marketing or offering documents relating to the Fund directly to that investment advisor
