

Stanley Black & Decker Names Dr. Mark Maybury Company's First Chief Technology Officer

November 9, 2017

NEW BRITAIN, Conn., Nov. 9, 2017 /PRNewswire/ -- Stanley Black & Decker (NYSE: SWK) has named Dr. Mark Maybury to the newly created position of Chief Technology Officer. Maybury joins the organization from The MITRE Corporation, where he held a variety of strategic technology leadership roles over 27 years. At Stanley Black & Decker, Maybury will form a small, agile team to work across the company's businesses and functions to advise and counsel management on technological threats and opportunities, as well as provide access to all elements of the global technology ecosystem.

"Mark is a well-known and highly respected technology leader with an impressive wealth of knowledge and expertise critical to our technological journey," said Stanley Black & Decker's President and CEO Jim Loree. "Our aspiration is to become known as one of the world's leading innovators, and we believe this is a key component of our strategy to achieve the 22/22 vision. As the pace of change continues to accelerate across the continuum of technologies, we are staffing our team with the right talent to navigate the changing world."

Maybury most recently served as Vice President of Intelligence Portfolios and prior to that was MITRE's Vice President and Chief Security Officer and Director of the National Cybersecurity Federally Funded Research and Development Center (FFRDC). Before joining MITRE, Maybury served as a U.S. Air Force officer. He later returned to the Air Force as Chief Scientist from 2010 to 2013 where he advised the Chief of Staff and Secretary of the Air Force on a wide range of scientific and technical issues.

He is currently a member of the Defense Science Board and recently completed multiple years of service on the Air Force Scientific Advisory Board and the Homeland Security Science and Technology Advisory committee. He is a fellow in both the IEEE and the Association for the Advancement of Artificial Intelligence. Maybury is widely published, having authored or edited 10 books and more than 60 publications.

Maybury earned a bachelor's degree in mathematics from College of the Holy Cross (Fenwick Scholar, valedictorian), a master's degree in computer speech and language processing from Cambridge University, England (Rotary Scholar), a master's degree in business administration from Rensselaer Polytechnic Institute, and a doctoral degree in artificial intelligence also from Cambridge University.
