Forward-looking statements and Important Information

This presentation and comments made in the associated conference call today may include “forward-looking statements.” Forward-looking statements include information concerning future results of our operations, expenses, earnings, liquidity, cash flow, capital expenditures and AUM and could differ materially from events that actually occur in the future due to known and unknown risks and other important factors, including, but not limited to, industry or market conditions, geopolitical events and pandemics or health crises and their respective potential impact on the company, acquisitions and divestitures, debt and our ability to obtain additional financing or make payments, regulatory developments, demand for and pricing of our products and other aspects of our business or general economic conditions. In addition, words such as “believes,” “expects,” “anticipates,” “intends,” “plans,” “estimates,” “projects,” “forecasts,” and future or conditional verbs such as “will,” “may,” “could,” “should,” and “would” as well as any other statement that necessarily depends on future events, are intended to identify forward-looking statements. None of this information should be considered in isolation from, or as a substitute for, historical financial statements.

Forward-looking statements are not guarantees, and they involve risks, uncertainties and assumptions. Although we make such statements based on assumptions that we believe to be reasonable, there can be no assurance that actual results will not differ materially from our expectations. We caution investors not to rely unduly on any forward-looking statements and urge you to carefully consider the risks described in our most recent Form 10-K and subsequent Forms 10-Q, filed with the Securities and Exchange Commission. You may obtain these reports from the SEC’s website at www.sec.gov. We expressly disclaim any

obligation to update the information in any public disclosure if any forward-looking statement later turns out to be inaccurate.

This presentation includes the following non-GAAP performance measures: net revenues (and by calculation, net revenue yield on AUM), adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to Invesco Ltd., and adjusted diluted earnings per share (EPS). We believe the adjusted measures provide valuable insight into our ongoing operational performance and assist in comparisons to our competitors. These measures also assist management with the establishment of operational budgets and forecasts. The most directly comparable U.S. GAAP measures are operating revenues (and by calculation, gross revenue yield on AUM), operating expenses, operating income, operating margin, net income attributable to Invesco Ltd., and diluted EPS.

A reconciliation of U.S. GAAP results to non-GAAP results may be found in the Appendix. The information in this presentation is meant to supplement the information contained in the earnings release and includes a more detailed reconciliation format of the income statement from U.S. GAAP to a non-GAAP presentation. We believe that this presentation is useful, as it aggregates the various non-GAAP adjustments to illustrate adjusted revenue and expense categories and allows more transparency into the calculation of the non-GAAP financial measures.

Advantageous Position + Winning Strategic Focus = Enhanced Operating Performance

AUM above benchmark
 1st quartile
 2nd quartile

AUM measured in the one-, three-, and five-year quartile rankings represents 40%, 40%, and 40% of total Invesco AUM, respectively, and AUM measured versus benchmark on a one-, three-, and five-year basis represents 51%, 50%, and 47% of total Invesco AUM as of 6/30/2024. Peer group rankings are sourced from a widely-used third party ranking agency in each fund's market (Morningstar, IA, Lipper, eVestment, Mercer, Galaxy, SITCA, Value Research) and asset-weighted in USD. Rankings are as of prior quarter-end for most institutional products and prior month-end for Australian retail funds due to their late release by third parties. Rankings are calculated against all funds in each peer group. Rankings for the primary share class of the most representative fund in each composite are applied to all products within each composite. Performance assumes the reinvestment of dividends. Past performance is not indicative of future results and may not reflect an investor's experience.

Second quarter 2024 financial highlights

- Net long-term inflows of \$16.7 billion or 5.6% annualized organic growth
 - Ending AUM grew 12% year-over-year to a record high of \$1.7 trillion
- Generated positive operating leverage of nearly 400 basis points with net revenues up over 3% and operating expenses down nearly 1% from last quarter
 - Drove over 270 basis points of margin improvement
- Strong balance sheet with net debt of nearly zero and further improved leverage ratios with a zero balance on our credit facility at quarter end; plan to execute share buybacks beginning in Q3'24

(1) Excludes amounts related to vesting of employee share awards

(2) Leverage ratio calculations and reconciliation of US GAAP measures to Non-GAAP measures

The leverage ratio is defined by our credit facility agreement and equals adjusted debt divided by covenant adjusted EBITDA. Adjusted debt and covenant adjusted EBITDA are non-GAAP financial measures that are used by management in connection with certain debt covenant calculations under our credit agreement. The calculation of covenant adjusted EBITDA below (a reconciliation from net income attributable to Invesco Ltd.) is defined by our credit agreement, and therefore net income attributable to Invesco Ltd. is the most appropriate GAAP measure from which to reconcile covenant adjusted EBITDA

Leverage ratio including preferred stock is adjusted debt, as defined in the credit agreement, plus the preferred stock balance of \$4,010.5 million (for all periods presented), divided by covenant adjusted EBITDA

The calculation of adjusted debt is defined in our credit facility and equals debt plus letters of credit less excess unrestricted cash (cash and cash equivalents less the minimum regulatory capital requirement), not to exceed \$500 million. For Q2 2024, adjusted debt of \$406.4 million is calculated as debt of \$890.1 million plus \$3.3 million in letters of credit less \$487.0 million of excess unrestricted cash.

Covenant adjusted EBITDA is calculated on a rolling four quarters basis. For the rolling four quarters ended Q2 2024, the calculation and reconciliation from Net income attributable to Invesco Ltd. to covenant adjusted EBITDA is presented below:

\$ millions	Total
Net income attributable to Invesco Ltd.	(\$337.2)
Dividends on preferred shares	\$236.8
Tax expense/(benefit)	(\$72.4)
Amortization/depreciation/impairment	\$1429.0
Interest expense	\$66.3
Common share-based compensation expense	\$84.3
Unrealized gains and losses from investments, net	\$8.5
Regulatory matters	\$50.0
Covenant adjusted EBITDA	\$1,465.3

Management believes these measures are useful to investors to provide context on the Company's liquidity position. Additional detailed information and disclosures regarding the reconciliation from US GAAP to non-GAAP measures may be found in prior period Forms 10-K and 10-Q
