NEWS RELEASE

Entravision Announces Strategic Amendment to Its Credit Agreement

2025-07-16

BURBANK, Calif.--(BUSINESS WIRE)-- Entravision Communications Corporation (NYSE: EVC), a global media and advertising technology company, announced that on July 15, 2025 it entered into a strategic amendment to its credit agreement. The move is intended to increase the company's financial stability and accelerate debt reduction, resulting in lower financial risk through the term of its credit facility, which matures in March 2028.

"We are pleased with the strategic changes we've made to our credit facility," said Mark Boelke, Chief Financial Officer of Entravision. "Reducing debt is a key priority for Entravision that will provide operational and financial stability and flexibility. The media industry is undergoing unprecedented changes and this amendment provides us with additional financial flexibility to navigate these changes and build shareholder value."

Key provisions of the amendment include:

Accelerated debt reduction

- Scheduled quarterly term loan payments increased to $5 million from $2.5 million. This follows a voluntary prepayment of $10 million in the second quarter of 2025 and further strengthens the company's low leverage ratios.
- Revolving credit facility commitments decreased to $30 million from $75 million, optimizing available liquidity while reducing commitment fees.

Enhanced financial stability

- The net leverage ratio will be calculated on a trailing eight-quarter basis, instead of a trailing four-quarter

basis, and the maximum permitted net leverage ratio increased to 4.0x from 3.25x. These changes are intended to moderate the effects of cyclical political advertising revenue, and provide a more stable leverage profile and greater operational flexibility.

Additional details about the amendment to the credit agreement are available in the company's Current Report on Form 8-K filed today with the U.S. Securities and Exchange Commission.

About Entravision Communications Corporation
