# Bally's Corporation Announces Fourth Quarter And Full Year 2022 Results

2/23/2023

PROVIDENCE, R.I., Feb. 23, 2023 /PRNewswire/ -- Bally's Corporation (NYSE: BALY) today reported financial results for the fourth quarter and full year ended December 31, 2022.

## Fourth Quarter and Full Year 2022 Financial Highlights

- Revenue of \$576.7 million and \$2.3 billion, respectively
- Net loss of \$487.5 million and \$425.5 million, respectively, includes non-cash goodwill and asset impairment charges of \$464.0 million
- Adjusted EBITDA of \$145.8 million and \$548.5 million, respectively
- Adjusted EBITDAR of \$164.4 million and \$601.8 million, respectively

Robeson Reeves, current Bally's President – Interactive, and incoming Chief Executive Officer, said, "As previously reported in our preliminary release of these financial results, we are pleased to have achieved record results in both our Casinos & Resorts and International Interactive segments. Our core businesses continue to generate fantastic cash flows. UK revenue grew 12% organically in the fourth quarter as regulations continue to play through, while in December, Asia saw positive year-over-year organic growth, proving that our initiatives to maintain a competitive advantage in that market are effective. We remain committed to taking a deep dive approach in North America to ensure that investments we make in sports have a near-term path to profitability. In iCasino states, we've increased our market share in both New Jersey and Ontario as we integrate this business in a scalable way."

George Papanier, current Bally's President – Casinos & Resorts, and incoming Bally's President, said, "As previously noted, Casinos & Resorts saw continued momentum across the portfolio during the fourth quarter. We also broke ground on our temporary facility in Chicago, which we expect will contribute to the business in the second half of

2023. Though Atlantic City generated a loss during a slower fourth quarter, it continues to progress, and we expect the property to be profitable in 2023. Significant capital expenditures toward property improvements will decrease in 2023 as we focus on generating cash flows to invest in long-term growth opportunities for the entire Bally's portfolio. Finally, business momentum continues to be strong into 2023, with no slowdown in the consumer, as we continue to closely monitor market macro dynamics."

## 2023 Guidance

Bally's is reaffirming the guidance it provided on February 13, 2023 for the year ending December 31, 2023 and estimates revenue in the range of \$2.5 billion to \$2.6 billion and Adjusted EBITDAR in the range of \$660 million to \$700 million, which includes approximately \$124 million of rent expense (cash rent of \$119 million) and a range of \$40 million to \$50 million of Adjusted EBITDA losses in North America Interactive. Bally's guidance is based on current plans and expectations and contains a number of assumptions. The guidance is subject to a number of known and unknown uncertainties and risks, including those discussed under "Cautionary Note Regarding Forward-Looking Statements" set forth below.

## Capital Return Program

During the fourth quarter, Bally's repurchased 0.9 million shares of its common stock for an aggregate purchase price of \$20.8 million - for the full year, we repurchased 6.6 million shares. Bally's currently has \$190.4 million available for use under its capital return program, subject to limitations in its regulatory and debt agreements.

## Completed Sale Leaseback on January 3, 2023 for Bally's Tiverton and Hard Rock Biloxi

On January 3, 2023, Bally's completed its previously announced sale leaseback transaction with GLPI for the land and real estate assets of Bally's Tiverton and Hard Rock Biloxi for total net proceeds of \$609.1 million, including a \$200.0 million advance deposit received during the third quarter of 2022. The transaction is a tax-free capital contribution and a substantial portion of the proceeds will be applied to reduce the Company's debt.

## Goodwill and Asset Impairment Charges

In the fourth quarter of 2022, Bally's recorded a non-cash impairment charge of \$390.7 million as a result of its annual goodwill and asset impairment analysis related to its North America Interactive segment, primarily related to the Bet.Works and Monkey Knife Fight acquisitions. Additionally, we recorded a non-cash impairment charge of \$73.3 million in the International Interactive segment related to a long-standing indefinite lived trademark acquired as part of the Gamesys acquisition that is being deemphasized for other newer brands in Asia and Rest of World.

## Leadership Transition

On February 13, 2023, Bally's announced that Lee Fenton, CEO, will step down and Robeson Reeves, President – Interactive, will take over as CEO, effective March 31, 2023. Additionally, George Papanier, long-time Bally's executive, will become Bally's sole President.

## Update on Bally Sports

Bobby Lavan, Bally's Chief Financial Officer, provided commentary on recent news reports regarding Diamond Broadcast Group. "In 2020, Bally's acquired naming rights over Diamond's regional sports networks. Sinclair Broadcast Group separately agreed to promote the Bally's brand over Sinclair networks. However, the Bally's brand and naming rights are owned by Bally's alone. Bally's has no liability related to Diamond's debt and Diamond holds no equity or other ownership rights in Bally's. We continue to monitor the Diamond situation closely and look forward to working with the new management team. Bally's will continue to promote its brand through multiple means, including our national portfolio of Bally's branded casinos, various media partnerships like that with Sinclair and the Tennis Channel and our global digital portfolio."

## Reconciliation of GAAP Measures to Non-GAAP Measures

To supplement the financial information presented on a generally accepted accounting principles ("GAAP") basis, the Company has included in this earnings release non-GAAP financial measures for Adjusted EBITDA and Adjusted EBITDAR, which exclude certain items described below. The reconciliations of these non-GAAP financial measures to their comparable GAAP financial measures are presented in the tables appearing below.

"Adjusted EBITDA" is earnings, or loss, for the Company, or where noted the Company's reportable segments, before, in each case, interest expense, net of interest income, provision (benefit) for income taxes, depreciation and amortization, non-operating (income) expense, acquisition, integration and restructuring expenses, share-based compensation, and certain other gains or losses as well as, when presented for the Company's reporting segments, an adjustment related to the allocation of corporate costs among segments.

"Adjusted EBITDAR" is Adjusted EBITDA (as defined above) for the Company's Casinos & Resorts segment plus rent expense associated with triple net operating leases.

Management has historically used Adjusted EBITDA when evaluating operating performance because the Company believes that this metric is necessary to provide a full understanding of the Company's core operating results and as a means to evaluate period-to-period performance. Management also believes that Adjusted EBITDA is a measure that is widely used for evaluating operating performance of companies in the Company's industry and a principal basis for valuing such companies as well. Adjusted EBITDAR is used outside of our financial statements solely as a valuation metric. Management believes Adjusted EBITDAR is an additional metric traditionally used by analysts in valuing gaming companies subject to triple net leases since it eliminates the effects of variability in leasing methods and capital structures. Adjusted EBITDA should not be construed as an alternative to GAAP net income as an indicator of the Company's performance. In addition, Adjusted EBITDA or Adjusted EBITDAR as used by the Company may not be defined in the same manner as other companies in the Company's industry, and, as a result, may not be comparable to similarly titled non-GAAP financial measures of other companies.

Bally's does not provide reconciliations of Adjusted EBITDAR on a forward-looking basis to net income, its most comparable GAAP financial measure, because Bally's is unable to forecast the amount or significance of certain items required to develop meaningful comparable GAAP financial measures without unreasonable efforts. These items include depreciation, impairment charges, gains or losses on retirement of debt, acquisition, integration and restructuring expenses, interest expense, share-based compensation expense, professional and advisory fees associated with Bally's capital return program and variations in effective tax rate, which are difficult to predict and estimate and are primarily dependent on future events, but which are excluded from Bally's calculations of Adjusted EBITDAR. Bally's believes that the probable significance of providing this forward-looking valuation metric without a reconciliation to the most directly comparable GAAP metric, is that investors and analysts will have certain information that Bally's believes is useful and meaningful in valuing its business. Investors are cautioned that Bally's cannot predict the occurrence, timing or amount of all non-GAAP items that may be excluded from Adjusted EBITDAR in the future. Accordingly, the actual effect of these items, when determined could potentially be significant to the calculation of Adjusted EBITDAR.

## Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Forward-looking statements may generally be identified by the use of words such as "anticipate," "believe," "expect," "intend," "plan" and "will" or, in each case, their negative, or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. As a result, these statements are not guarantees of future performance and actual events may differ materially from those expressed in or suggested by the forward-looking statements. Any forward-looking statement made by Bally's in this press release, its reports filed with the SEC and other public statements made from time-to-time speak only as of the date made. New risks and uncertainties come up from time to time, and it is impossible for Bally's to predict or identify all such events or how they may affect it. Bally's has no obligation, and does not intend, to update any forward-looking statements after the date hereof, except as required by federal securities laws. Factors that could cause these differences include those included in Bally's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and other reports filed by Bally's with the SEC. These statements constitute Bally's cautionary statements under the Private Securities Litigation Reform Act of 1995.
