Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► **Kinetik Holdings Inc. distributed cash to holders of its Class A Common Stock on February 12, 2025 (\$0.78 per share), and May 2, 2025 (\$0.78 per share). Kinetik Holdings Inc. expects that its current and accumulated earnings and profits will not be sufficient to characterize all of the 2025 distributions as taxable dividends.**

Pursuant to Treasury Regulation Section 1.6045B-1(a)(2)(ii) Kinetik Holdings Inc. determined the amounts on this form using reasonable assumptions about facts that cannot be determined before this date. If Kinetik Holdings Inc. determines new facts that will result in a different quantitative effect on basis, Kinetik Holdings Inc. will file a corrected Form 8937 within 45 days of such determination.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► **Based on information available at the time of this posting, Kinetik Holdings Inc. anticipates that the cash distributions paid on February 12, 2025, and May 2, 2025 will be 0% (or \$0.00 per share) taxable dividend and 100% (or \$0.78 per share) return of capital.**

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► **The distribution of cash is characterized as a taxable dividend to the extent it is a distribution out of the corporation's earnings and profits generated during the current year or accumulated from prior years. The portion of the distribution that exceeds current and accumulated earnings and profits is treated as a non-taxable return of capital which reduces the shareholder's adjusted basis in the stock. If the return of capital portion of the distribution exceeds the stock basis, the excess is treated as capital gain.**
