

First Quarter 2026 EARNINGS CONFERENCE CALL

May 7, 2026

Forward-Looking Statements & Non-GAAP Disclaimer

Forward-Looking Statements

This presentation includes forward-looking statements, including forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, but are not limited to, statements concerning the Company's plans, goals, objectives, outlook, expectations, and intentions, including statements that are not historical or current fact. Forward-looking statements are based on the Company's current expectations and involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such forward-looking statements, including general risks and uncertainties such as market conditions, economic conditions, geopolitical events, changes in laws, regulations or accounting rules, fluctuations in interest rates, terrorism, wars or conflicts, major health concerns, natural disasters or other disruptions of expected business conditions. Factors that could cause the Company's results to differ materially from current expectations include, but are not limited to, risks related to the impact of the war in Ukraine and the conflict in the Middle East and the resulting escalating geopolitical tensions; impact of supply chain disruptions; the impact of creditworthiness and financial viability of customers; impact of inflationary pressures, tariff and trade policies, foreign exchange fluctuations and commodity prices; other impacts on the Company's business and ability to execute business continuity plans; and the other factors detailed in the Company's Annual Report on Form 10-K and subsequent quarterly reports on Form 10-Q, as filed with the U.S. Securities and Exchange Commission ("SEC"). In addition, these statements are based on assumptions that are subject to change. This document speaks only as of the date hereof. The Company disclaims any duty to update the information herein.

Non-GAAP Financial Measures

This document includes a presentation of adjusted EBITA, adjusted EBITA margin, adjusted EBITDA, adjusted EBITDA margin, organic sales growth, and adjusted free cash flow and other financial measures that are not calculated in accordance with generally accepted accounting principles in the United States ("GAAP"), which ESAB uses to measure the performance of its business. The non-GAAP financial measures provided herein are adjusted for certain items as presented in the Appendix and should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP measures, and may not be comparable to similarly titled measures reported by other companies. ESAB presents some of these non-GAAP financial measures including and excluding Russia due to economic and political volatility caused by the Russia and Ukraine conflict, which results in enhanced investor interest in this information. Core non-GAAP financial measures excludes Russia for the three months ended April 3, 2026, and April 4, 2025. Management believes that these non-GAAP financial measures provide useful information to investors by offering additional ways of viewing ESAB's results, and represent the following:

- Organic sales growth (presented with and without Russia or "Core") excludes the impact of acquisitions and foreign exchange rate fluctuations;
- Adjusted EBITA (presented with and without Russia or "Core") represents net income excluding the effect of Restructuring and other related charges, acquisition transaction, due diligence and integration expenses, amortization of intangibles and fair value charges on acquired inventories and Pension settlement loss, income tax expense, and interest expense and other, net;
- Adjusted EBITDA (presented with and without Russia or "Core") represents Adjusted EBITA excluding the effect of depreciation and other amortization;
- Adjusted EBITA and adjusted EBITDA margins are subject to the same adjustments as adjusted EBITA and adjusted EBITDA, respectively;
- Adjusted net income from continuing operations (presented with and without Russia or "Core") represents net income from continuing operations attributable to ESAB Corporation excluding Restructuring and other related charges, acquisition due diligence and transaction expenses, amortization of intangibles and fair value charges on acquired inventories and Pension settlement loss. Adjusted net income includes the tax effect of non-GAAP adjusting items at applicable tax rates;
- Adjusted net income per share from continuing operations (presented with and without Russia or "Core") is a calculation of adjusted net income from continuing operations over the weighted-average diluted shares outstanding;
- Adjusted free cash flow represents cash flows from operating activities excluding cash outflows related to discontinued operations and acquisition related due diligence and transaction payments, less purchases of property, plant and equipment net of proceeds from sale of certain properties.
- Cash conversion represents Adjusted free cash flow divided by Core Adjusted net income from continuing operations.

Management also believes that presenting these measures allows investors to view its performance using the same measures that ESAB uses in evaluating our financial and business performance and trends. See the Appendix to this presentation for a reconciliation of these non-GAAP measures to their closest equivalent GAAP measures. Refer to information about the non-GAAP measures contained in this presentation. Additional information regarding non-GAAP measures can be found in our most recent Form 10-K and our Form 8-K furnished as of the date of this presentation with the SEC, which are available at www.ESABcorporation.com.

Reshaping ESAB For Faster Growth And Higher Margins

Accelerating journey to becoming a premier industrial compounder

Momentum Building For ESAB Equipment

Innovative ESAB Equipment

Ruffian 270
Engine Driven Welder

Aristo Edge
Manual & Advanced Robotics

Ruffian 270 – engine driven welder

- Weld & power equipment at the same time with no spikes
- Full scale rugged mobility with intuitive user interface
- Multiple auxiliary outlets increase flexibility

Aristo Edge – manual & robotics

- Manages arc 10-20x faster than traditional equipment
- Minimal post weld clean up
- Maximum platform flexibility with manual & robotic capability

Wins:

- Secured preferred status with yellow goods OEM with Aristo
- Gaining share with Ruffian engine driven welder
- Strong demand in channel for Ruffian

Ruffian and Aristo Edge opens ~\$250 million servable market

Opening New Markets With EWM Equipment

Complete Additive Manufacturing Workflow Solution

Filler Metals

EWM Feeder

Power Source
EWM Titan – React

Robotic Torches

Robot
(OEM Agnostic)

Orbital TIG welding

- Increased wafer manufacturing capacity

Additive manufacturing solution

- Best in class solution with EWM

Major wins:

- Global gas distributor in the U.S.
- Defense applications
- Nuclear applications
- Leading engineering & construction company
- German OEMs manufacturing in U.S.

Robotics, additive manufacturing and TIG / orbital TIG welding adds ~\$900 million servable market

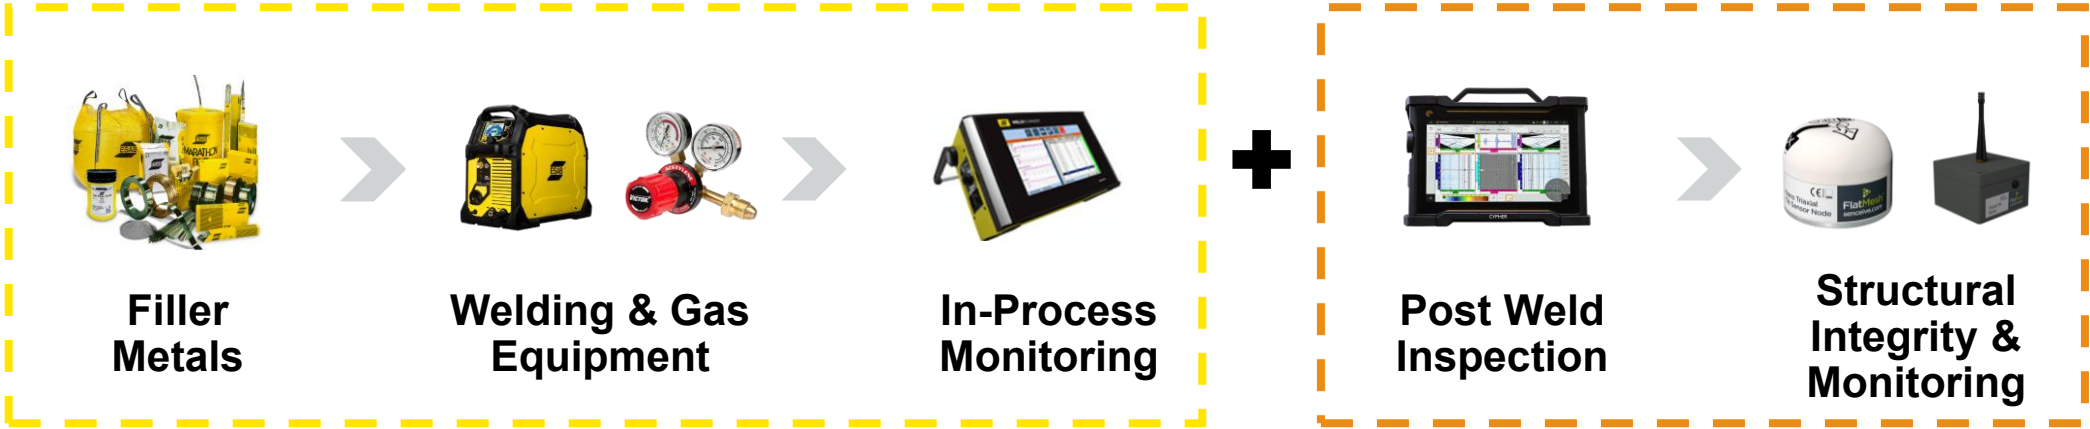

Eddyfi Extends ESAB's Unrivaled Workflow Solution

Weld Management & Traceability

Inspection & Continuous Monitoring

ESAB Enables Moon Mission

NASA Artemis Space Program:

- Friction-stir welding (FSW) joins 7 aluminum alloy structures, forming airtight bond
- Delivers exceptional strength & lightweight
- Superior bonds created through (FSW) helping to safeguard crew

ESAB Technology Creating Value For Customers:

- Solving the most difficult problems for our customers
- Unique workflow solution capability
- With Eddyfi, ESAB extends workflow into inspection & monitoring

ESAB innovation on display in mission critical real-world applications
