

NEWS RELEASE

Verisk Named One of the 2022 Best Workplaces in New York™ by Fortune Magazine and Great Place to Work® for Second Consecutive Year

6/27/2022

JERSEY CITY, N.J., June 27, 2022 (GLOBE NEWSWIRE) -- *Fortune* magazine and Great Place to Work have honored Verisk (Nasdaq: VRSK) as one of the Best Workplaces in New York for the second consecutive year. The award recognizes Verisk, a leading global data analytics provider, for its outstanding workplace culture of engagement through education and development, team collaboration and open communication.

The Best Workplaces in New York award is based on employee feedback collected through America's largest ongoing annual workforce study of over 1 million employee survey responses and data from companies representing more than 6.1 million U.S. employees. In that survey 83% of Verisk's employees said Verisk is a great place to work, compared to 57% of employees at the average U.S.-based company.

"In today's rapidly-evolving landscape, workplace culture rises to the top when considering job satisfaction and talent retention, key drivers of organizational success," said Sunita Holzer, Verisk's Chief Human Relations Officer. "We're continually looking for ways to support our teammates' passion and success, from designing education and leadership development programs to offering a growing number of well-being resources. Our colleagues also understand their impact and are empowered to drive meaningful change through innovation and resiliency efforts."

Verisk empowers customers to improve underwriting and claims outcomes, combat fraud and make informed decisions about global issues. Verisk works with clients in the vital insurance and energy industries to help them understand and manage risks to their businesses, drive operating efficiencies, strengthen mitigation in local communities and improve resiliency for all.

The Best Workplaces in New York list is highly competitive. Great Place to Work, the global authority on workplace culture, selected the list using rigorous analytics and confidential employee feedback. Companies were only considered if they are a Great Place to Work-Certified™ organization and headquartered in the New York metropolitan statistical area. Great Place to Work is the only company culture award in America that selects winners based on how fairly employees are treated. Companies are assessed on how well they are creating a great employee experience that cuts across race, gender, age, disability status or any aspect of who employees are or what their role is.

“As employee demands and expectations have dramatically changed over the past year, these companies have risen to the occasion—and it’s not been easy,” says Kim Peters, executive vice president of global recognition, research & strategic partnerships at **Great Place to Work**. “Their hard work and dedication to listen to and care for the well-being of every employee and support them in a way that’s meaningful to all, is the standard all organizations will be held to.”

Verisk has earned the Great Place to Work certification in the United States for six years and in Spain, the United Kingdom and India for two consecutive years. Verisk has also been recognized by Great Place to Work as a Best Workplace in Spain, Malaga and the UK, as well as a **Best Workplace for Wellbeing**, **Best Workplace for Women** and **Best Workplace in Tech** in the UK.
