## Tennant Company Addresses Cleaning Industry's Biggest Challenges at ISSA/INTERCLEAN North America 2013

10/30/2013

Tennant Booth #1540 'Clean Across the Planet' to include product displays, demos, and previews of Tennant technology innovations

MINNEAPOLIS--(BUSINESS WIRE)--Oct. 30, 2013-- Tennant Company (NYSE:TNC), a world leader in designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world will showcase advanced cleaning solutions to address today's major challenges affecting cleaning-industry professionals: Total Cost to Clean, Environmental Health and Safety, Facility Image and Sustainability.

'Clean Across the Planet' is the theme of the Tennant Company Booth #1540 which will feature more than a dozen solutions from the company's trusted brands: Tennant, Orbio Technologies and Nobles. In addition to three products nominated for the ISSA Innovation Award, the Tennant booth will feature the latest innovation in on-site cleaning solution generation from Orbio Technologies.

"After extensive research, Tennant identified the four most critical business issues that most cleaning programs face today," said Rusty Zay, senior vice president of global marketing for Tennant Company. "We're excited to showcase our high-performing, cost-effective and sustainable new cleaning solutions to address these challenges."

Visit Tennant at Booth #1540 to see

- Battery-powered scrubbers and sweepers with longer cleaning time between charges

- Orbital scrubbers that remove floor finish with chemical-free floor finish removal alternative
- IRIS™ (Intelligent Remote Information System) that gives facility managers information on equipment use
- New powerful burnishers with active 4-stage HEPA filtration dust control systems to protect indoor air quality
- Orbital scrubbers to help minimize airborne chemicals
- Easy-to-clean tanks to help operators reduce scrubber tank mold, bacteria and odors for improved air quality and cleanliness
- TwinMax™ technology that allows sweeper with twin brushes to capture debris in a single pass
- Ergonomic canister carpet extractor with a wide-reaching high-airflow titanium wand to optimize water flow and reduce drying time
- CRI Gold certified rapid-drying extractors that can turn spaces around quickly, use 80 percent less water and leave up to 90 percent less water in the carpet
- Orbio Technologies preview of the latest in On-Site Generation technology that simplifies processes and increases safety while reducing environmental footprint.

## 2013 ISSA Innovation Award Program

Three Tennant products have been entered for the 2013 Innovation Award Program: T12 Scrubber with IRIS™ Technology, S5 Sweeper with TwinMax™ Technology and B10 Rider Burnisher. Visit [www.issa.com/vote](http://www.issa.com/vote) to vote.
