# Tennant Company Introduces the T360: Intuitive, Simple, Mid-Sized Self-Propelled Walk-Behind Scrubber

2025-10-14

Built for fast onboarding and easy maintenance, the T360 walk-behind scrubber features a self-propelled drive with a 28" cleaning path, user-friendly controls and dependable run time for efficient floor cleaning

MINNEAPOLIS--(BUSINESS WIRE)-- **Tennant Company** (NYSE: TNC) today announced the launch of its latest mid-sized scrubber, the T360. Featuring intuitive controls, strong cleaning capability and productivity-focused design, the T360 offers a straightforward, effective cleaning solution for facility owners and operators seeking equipment that's easy to operate and maintain.

Tennant T360

"Facility managers are looking for equipment that their teams

can start using right away without lengthy training or complicated setup," said Chris Greenwood, Senior Global Product Manager at Tennant Company. "We made the T360 to meet that need with simple controls, high visibility for precise cleaning and features designed to help them get the job done with fewer passes."

The T360's one-button Stop-Start control, magnetic-assisted brush and pad change-out system, and easy-access maintenance touchpoints simplify operation and daily upkeep. Clear sight lines improve maneuverability along walls and in tight spaces, while the large recovery tank opening simplifies cleaning and maintenance.

On top of its ease of use and low upkeep requirements, the T360 delivers reliable cleaning performance and productivity through:

- Excellent water pickup: Parabolic squeegee design with standard Linatex™ blades and integrated splash guards help control spray and maximize water pickup, keeping floors dry.
- Effective, efficient cleaning: A 28-inch (700 mm) scrub head and floating squeegee assembly deliver consistent results, even along walls and in tight spaces.
- Extended run time: Maintenance-free GEL battery provides up to three hours of cleaning on a single charge, supported by an off-board charger for added convenience.

“The T360 is built to help teams stay productive without overcomplicating the job,” said Greenwood. “Its ease of use and purposeful feature set make it a strong choice for retail, education, hospitality, healthcare and other high-traffic environments where clean, safe floors are table stakes.”

The T360 will be available for purchase on October 14, 2025. For more information on the T360 and similar cleaning solutions from Tennant Company, visit
