Disclosure Rules

Cautionary Note on Forward-Looking Statements. This presentation contains forward-looking statements including, without limitation, statements concerning plans, objectives, goals, projections, strategies, future events or performance, and underlying assumptions and other statements, which are not statements of historical facts or guarantees or assurances of future performance. Forward- looking statements may be identified by the use of words like “expect,” “anticipate,” “intend,” “forecast,” “outlook,” “will,” “may,” “might,” “potential,” “likely,” “target,” “plan,” “contemplate,” “seek,” “attempt,” “should,” “could,” “would” or expressions of similar meaning. Forward-looking statements reflect management’s evaluation of information currently available and are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Factors that might cause such a difference include, but are not limited to, those discussed in our Annual Report on Form 10-K, under Part I, Item 1A — “Risk Factors” and elsewhere in that report. As a result of these or other factors, our actual results may differ materially from those contemplated by the forward-looking statements. Therefore, we caution you against relying on any of these forward-looking statements. The forward-looking statements included in this presentation are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

This presentation contains financial measures that are not in accordance with generally accepted accounting principles in the US (“GAAP”) including Adjusted EBITDA, Adjusted Net Income, Adjusted EPS, and Free Cash Flow. We believe these measures provide relevant and meaningful information to investors and lenders about the ongoing operating results of the Company. Such measures when referenced herein should not be viewed as an alternative to GAAP measures of performance or liquidity. We have provided a reconciliation of these measures to the most comparable GAAP metric in the Appendix section of this presentation.

Q1 2017 Financial Results & Highlights

Net Income:	Adj EBITDA*:	EPS / Adj EPS*:
$117MM	**$182MM**	**$2.59 / $2.42**

Performance Materials

Net Sales: **$637MM**
Adj EBITDA: **$110MM**

Latex Binders
Net Sales: **$289MM**
Adj EBITDA: **$37MM**

Synthetic Rubber
Net Sales: **$163MM**
Adj EBITDA: **$46MM**

Performance Plastics
Net Sales: **$185MM**
Adj EBITDA: **$27MM**

Strategic Intent:
- Grow profitability via technology leadership in focused markets
- Stable and consistent cash generation
- Organic growth and possible bolt-on acquisitions

Basic Plastics & Feedstocks

Net Sales: **$468MM**
Adj EBITDA: **$99MM**

Basic Plastics
Net Sales: **$381MM**
Adj EBITDA: **$39MM**

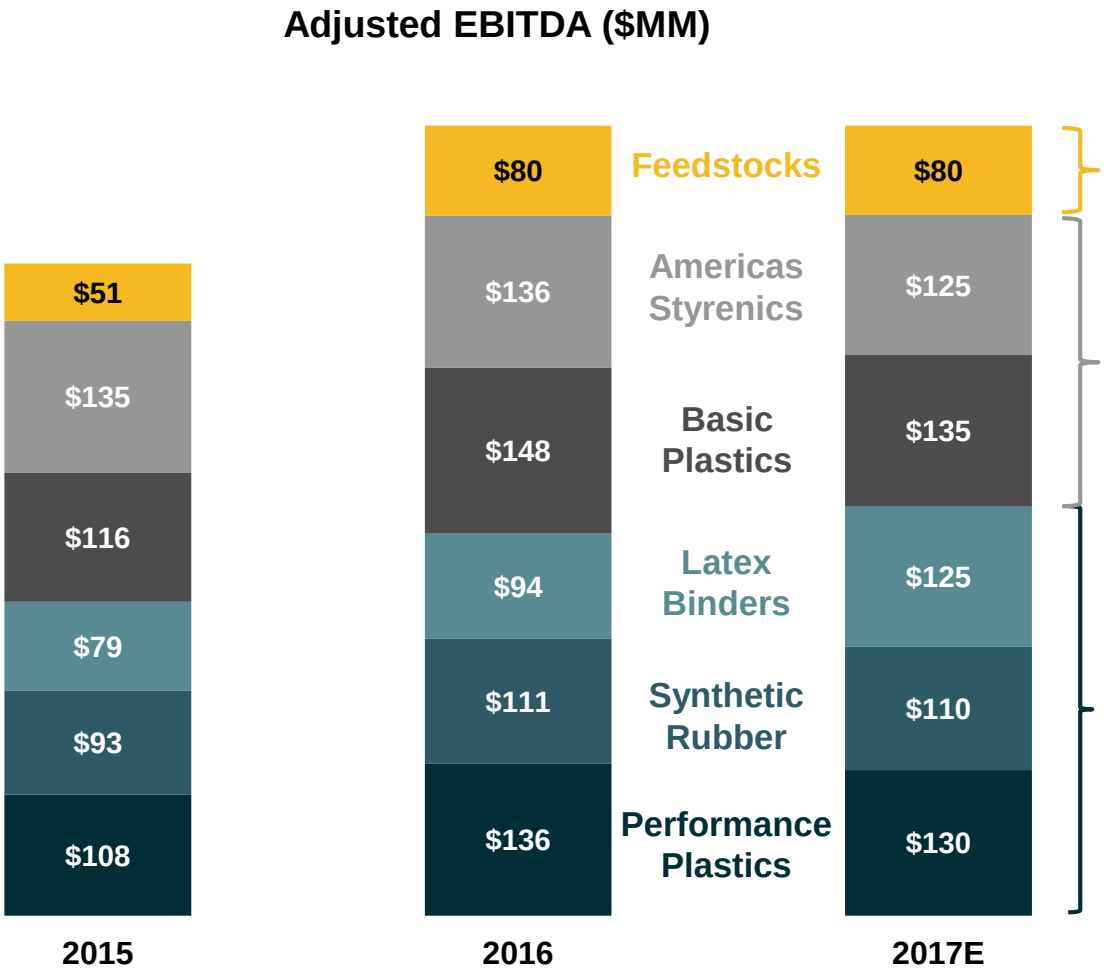

Feedstocks
Net Sales**: **$87MM**
Adj EBITDA: **$42MM**

Americas Styrenics
Adj EBITDA: **$18MM**

Strategic Intent:
- Generate cash via productivity, reliability, and margin improvement
- Manage JV for cash
- Investment focused on maintenance and productivity

Note: Division and Segment Adjusted EBITDA excludes Corporate Adjusted EBITDA of ($27) million. Totals may not sum due to rounding.
* Includes $24 million pre-tax favorable net timing impact; see Appendix for reconciliation of non-GAAP measures.
** Net Sales represents sales to external customers only; however, the majority of the Feedstocks segment Adj EBITDA* is driven by margin on internal transfers

EBITDA Composition

Feedstocks
- Quarter to quarter variability but annually stable to growing
- Tightening operating rates

Basic Plastics & AmSty
- Stable EBITDA
- Balanced operating rates
- Managing for cash

Performance Materials
- Investing for growth
- On track to meet or exceed growth target

Note: Division/Segment Adjusted EBITDA excludes Corporate Adjusted EBITDA of ($90) million, ($95) million, and ($95) million for 2015, 2016, and 2017E, respectively

Thank You

Company Transformation

TRINSEO

Emerge	Build up	Sustain	Optimize & Grow
2010 - 2012 • Company setup • Cost reductions • Low BP&F operating rates • Solid PMD performance • Capital rationalization • LBO debt structure	**2013 - 2014** • Controlled costs • Improving BP&F operating rates • Solid PMD performance • Controlled capital deployment • 144a Bonds / IPO	**2015 - 2016** • Controlled costs • Rising BP&F operating rates • Solid PMD performance plus organic growth • Controlled capital deployment • Public-like debt structure • Cash distributions and share buybacks	**2016 and Beyond** • Sustainable BP&F operating rates • Higher growth PMD • Portfolio optimization • Disciplined capital deployment • Increased focus on growth and targeted M&A • Controlled costs • Public-like debt structure • Attractive dividend yield

Diversified Markets & Leading Positions

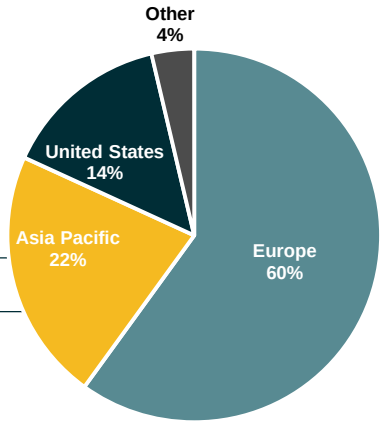

Leading Market Positions

- #1 SB Latex
- #1 Europe Styrene
- #1 Europe Synthetic Rubber
- #2 Europe Polystyrene
- #2 Europe ABS
- AmSty - #1 N. America Polystyrene

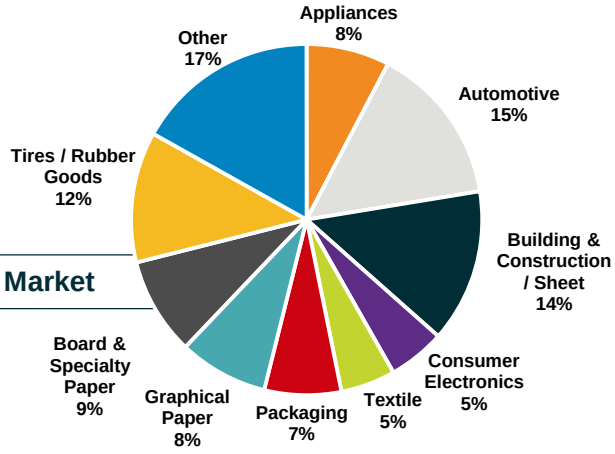

Favorable Dynamics

- Strong positions in consolidated North America & Europe Styrenics markets
- Favorable and improving supply / demand dynamics with limited new capacity in Basic Plastics & Feedstocks
- Differentiated product offerings across the Performance Materials Division

2016 Revenue by Geography

2016 Revenue by End Market

Note: 28% US inclusive of 50% interest in Americas Styrenics

Key Points – Q1 Earnings Call

Q1 2017 Results Exceeded Guidance

- Driven by higher margins in Latex Binders and Feedstocks
- Record sales volume in Synthetic Rubber
- Strong Performance Plastics volume

Performance Materials on Track to Meet or Exceed 2019 Growth Target

- Latex Binders improvement ahead of schedule
- Synthetic Rubber SSBR expansion, pilot plant, and new products
- Performance Plastics ABS capacity in China, organic growth, and new applications

Updating 2017 Guidance

- Net Income of $337MM to $353MM
- Adj EBITDA* of $600MM to $620MM

* See Appendix for reconciliation of non-GAAP measures.

Performance Materials

Performance Materials

INVESTING FOR GROWTH

- Increasing number of committed growth opportunities
- Active process to identify and execute additional activities
- Committed to growth, including bolt-on M&A

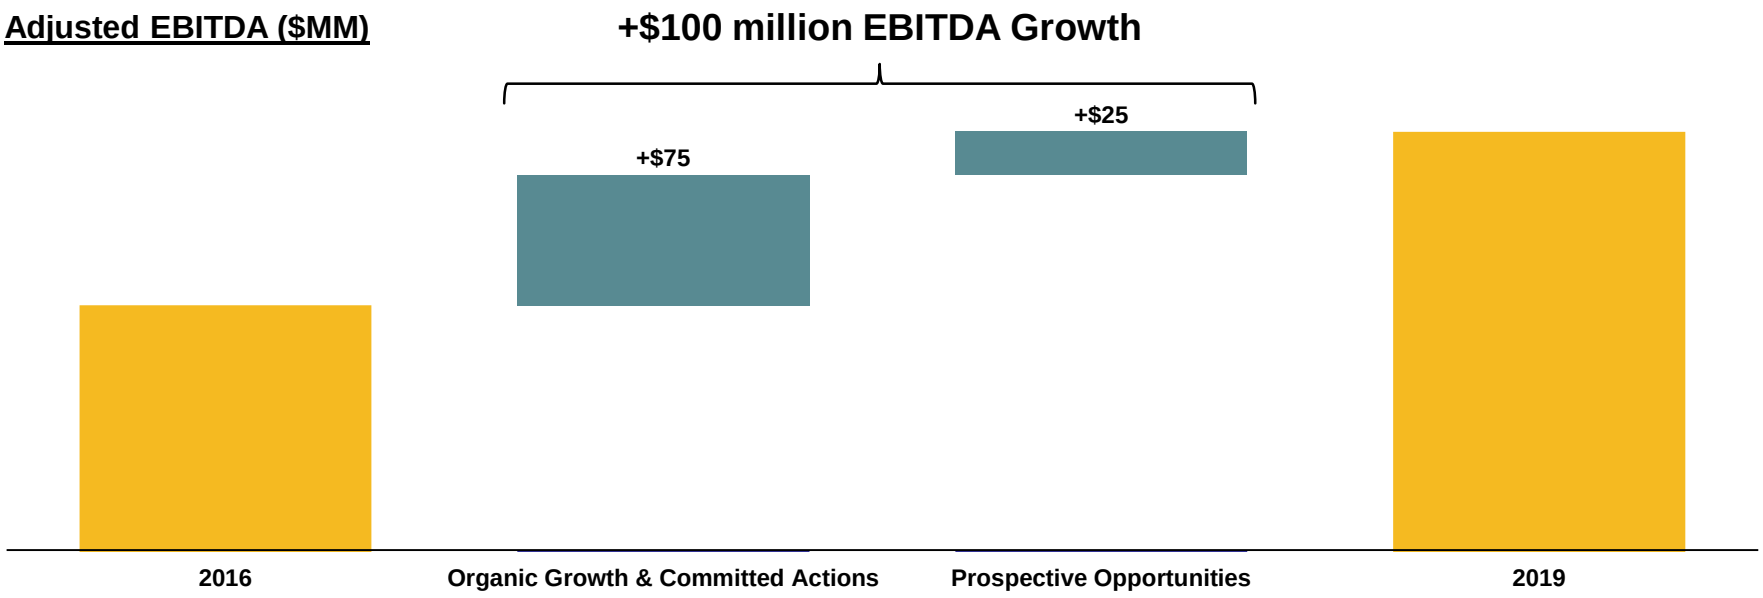

Performance Materials Growth Trajectory

- Investing in differentiated SSBR business in line with growth in performance tires
- Investing in ABS in China
- Cost control in paper and aggressive growth in Board, Textile and Construction in Latex Binders
- Bolt-on acquisitions in Performance Plastics and in construction in Latex Binders

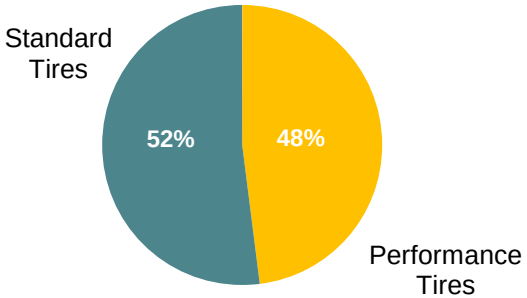

Performance Tire Market Growing at 8% - 10%

Rigorous Requirements

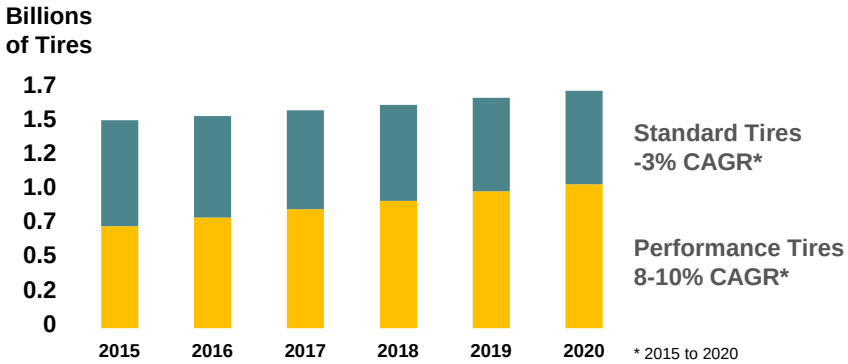

- Fuel efficiency → low rolling resistance
- Safety → improved grip
- Size / Speed → larger rim diameter (≥ 17''), higher speed rating

Total Tire Market

Source: LMC, Trinseo

Latex Binders

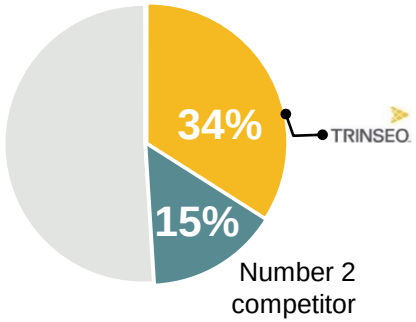

Markets

Graphical Paper

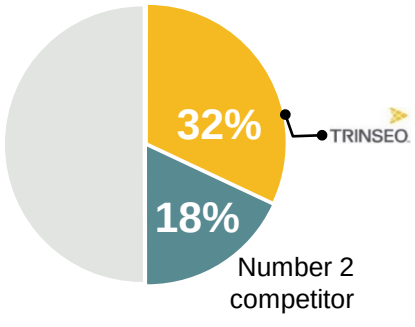

Global growth -3%

Board & Specialty Paper

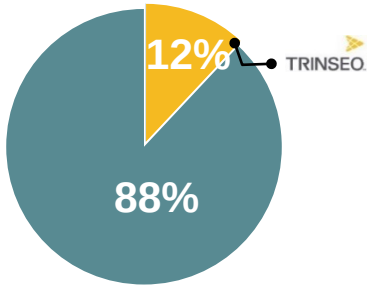

Global growth 3%

Textile

Global growth 1%

Adhesives & Construction

Global growth 5%

- **#1 position in Board: growth driven by e-commerce and increased hygiene standards**
- **Leader in graphical paper technology – maintain volume, push for margin**
- **#3 position in SB for Adhesives & Construction: growth driven in applications where the need for water barriers and sound control are increasing**

Latex Binders

Strategy

1) Optimize Footprint & Cost Control in Graphical Paper

- Respond to declining graphical paper market and maintain superior cost position →$10MM fixed cost reduction over the past two years
- Focus on leading paper mills

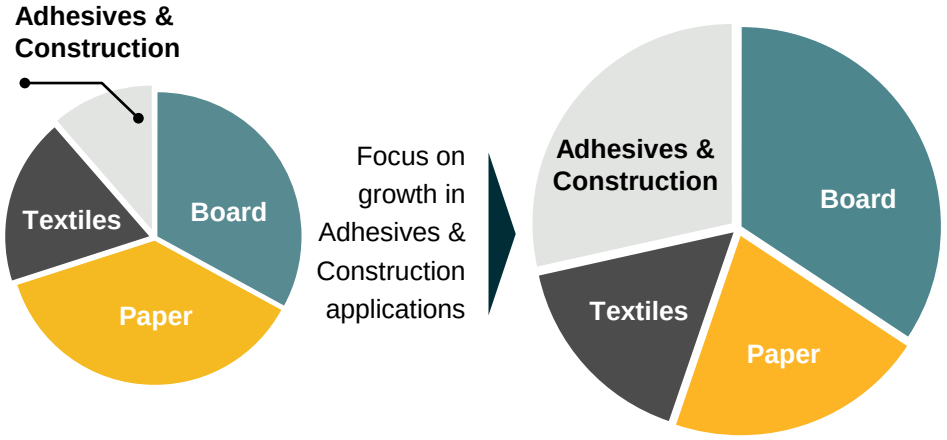

2) Customer Centricity

- Maintain our #1 position in Textile applications
- Grow in Board: 11 conversions announced from Paper to Board – all working exclusively with Trinseo

3) Growth in Adhesives & Construction Applications

- Expand SA technology
- Bolt-on M&A

Margin profile changing as Trinseo responds to market trends

Performance Plastics

Markets & Applications

Trinseo serves attractive markets where Plastics use is growing >10%

Annual growth:	Automotive >10%	Consumer Electronics 15%	Medical >10%	Lighting >10%

Source: Proprietary Roland Berger study

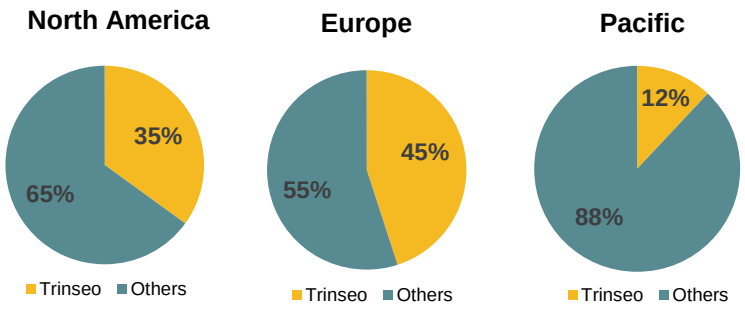

Trinseo enjoys long-term relationships with OEMs in all markets

Ford · Mercedes-Benz · GM · ETHICON Shaping the future of surgery · a · PHILIPS

Trinseo chosen for product reliability, consistency, and our ability to develop products that address the trends and challenges our customers face in their markets

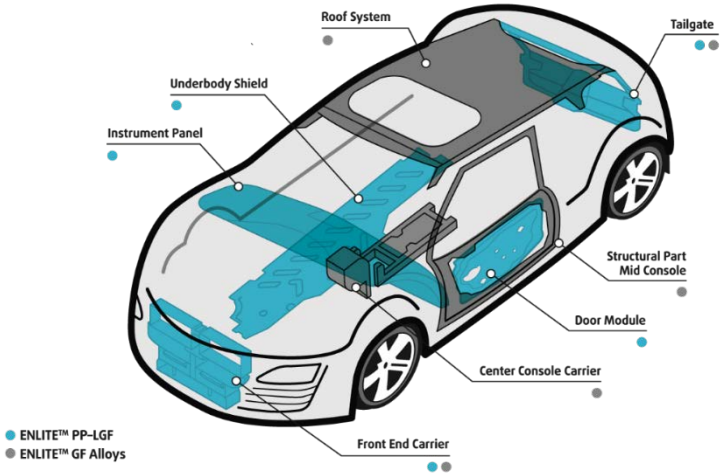

Growth in Automotive

Leader in ABS & PC blends for interior automotive applications

Source: Trinseo

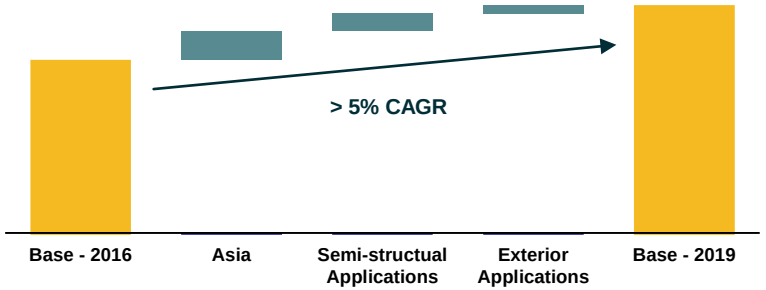

Plastic parts essential to achieve fuel efficiency goals

Specific actions to grow in excess of car production

- ABS in China
- PP Long-Glass Fiber 85% for semi-structural applications, reducing OEM costs by 10%
- PC Blends & Compounds for exteriors

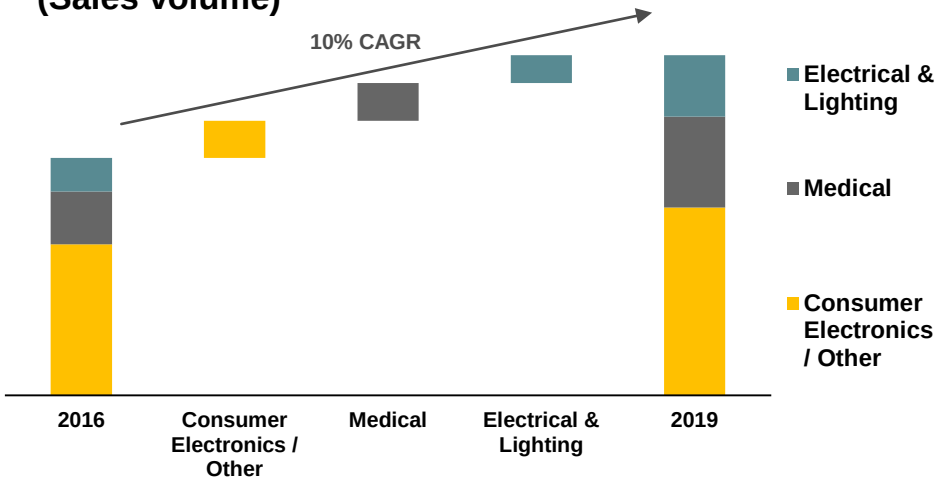

Initiatives driving volume growth in various markets

Growth in Electronics, Medical, & Lighting

Growth in high-end segments
(Sales volume)

Large & global, feedstock integrated, but lean & agile solution provider

Basic Plastics & Feedstocks

BP&F

SUSTAINABILITY

- Increasing operating rates
- Favorable market dynamics
- Leading and differentiated positions in key markets

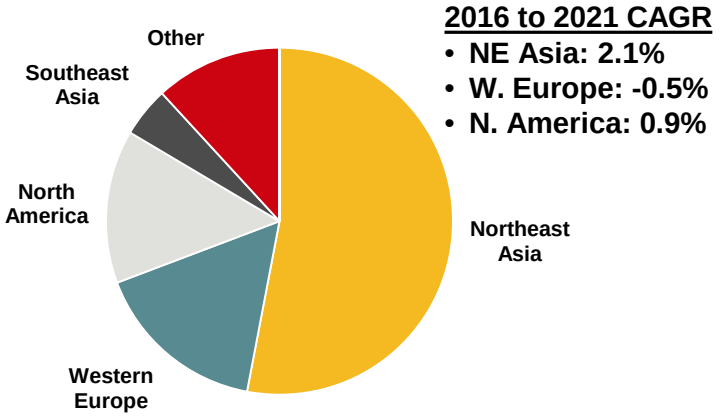

Styrene Demand Growth – 2016 to 2021

Styrene growth expected to be ~2% per year; demand predominantly in Asia

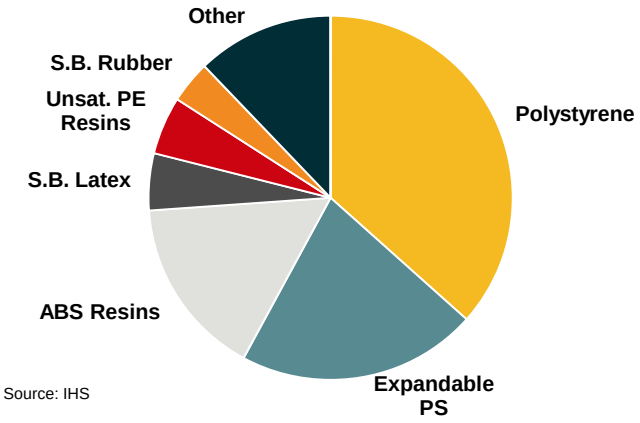

Styrene Demand by Product (CAGR % 2016-2021)

Product	Wood Mac	Argus	ICIS	TSE
SM	1.2	2.1	2.2	2.0
PS	1.1	1.0	1.8	1.0
EPS	0.3	3.6	2.8	
ABS	1.8	2.9	3.2	3.0

Styrene Demand by Region

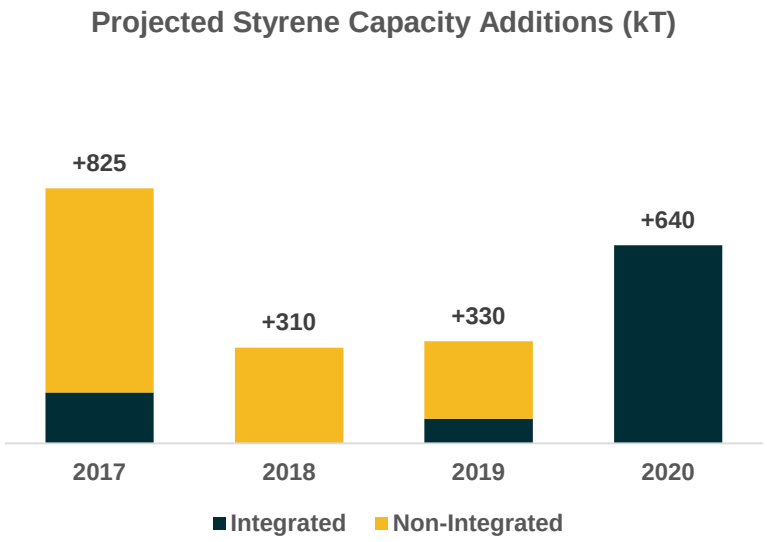

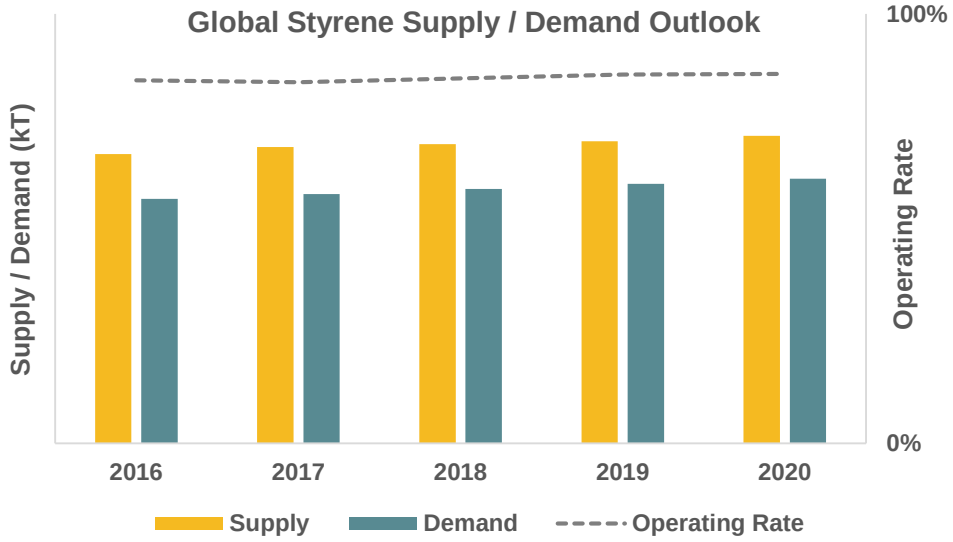

Styrene Demand by Product

Source: IHS

Styrene Supply / Demand Outlook

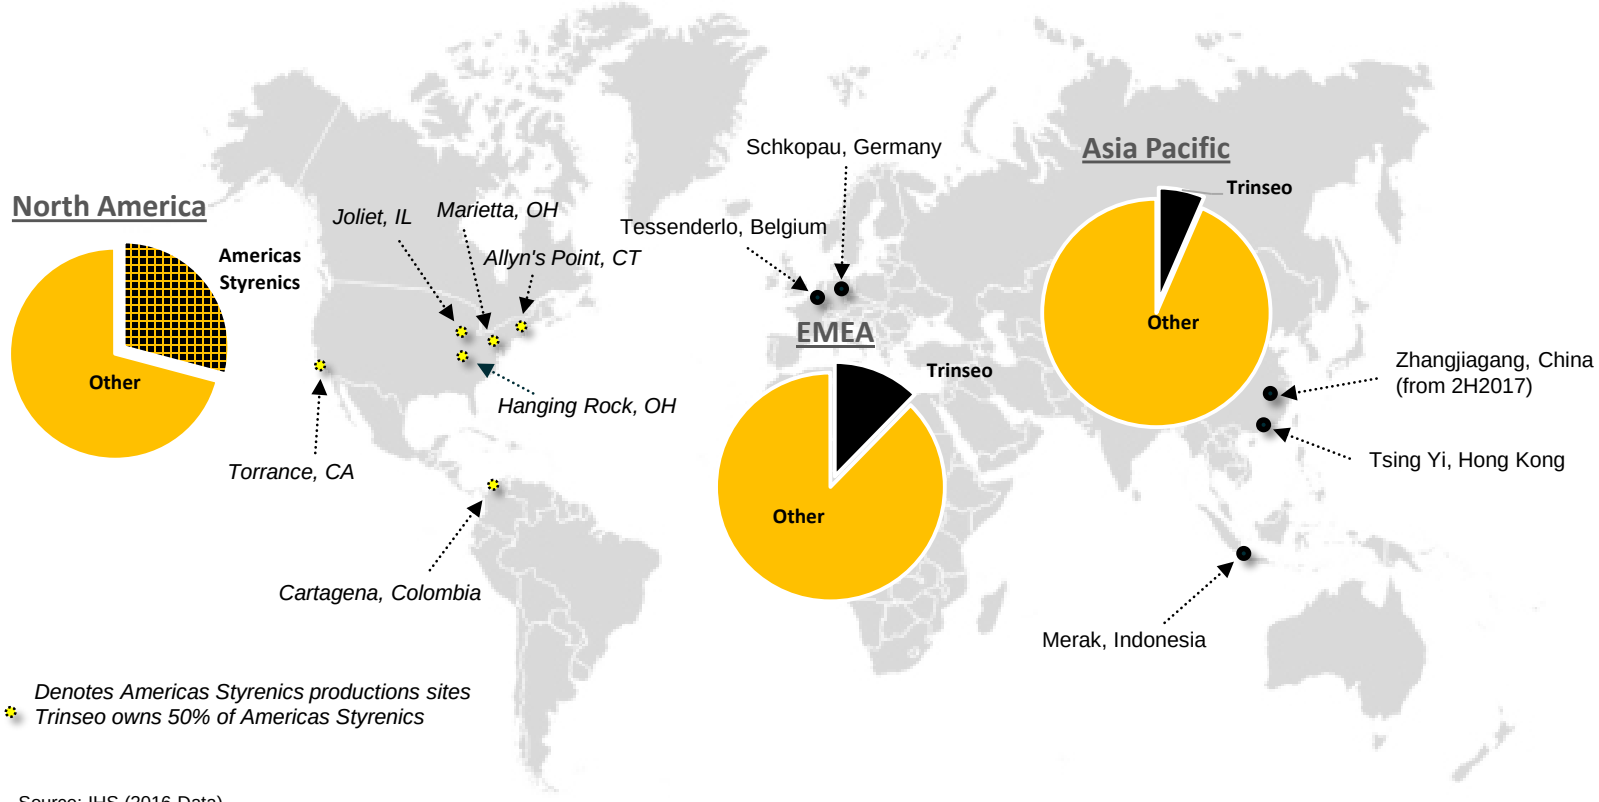

- Global capacity of about 33,000 kT
- 2016 to 2020 average annual supply growth of 1.6%
  - Over 85% of new capacity over next 3 years is non-integrated in China
- Estimated annual styrene demand growth is estimated at 2.0%

Supply / Demand Projections Support Continued Healthy Operating Rates Through 2020

Americas Styrenics

Performance Highlights

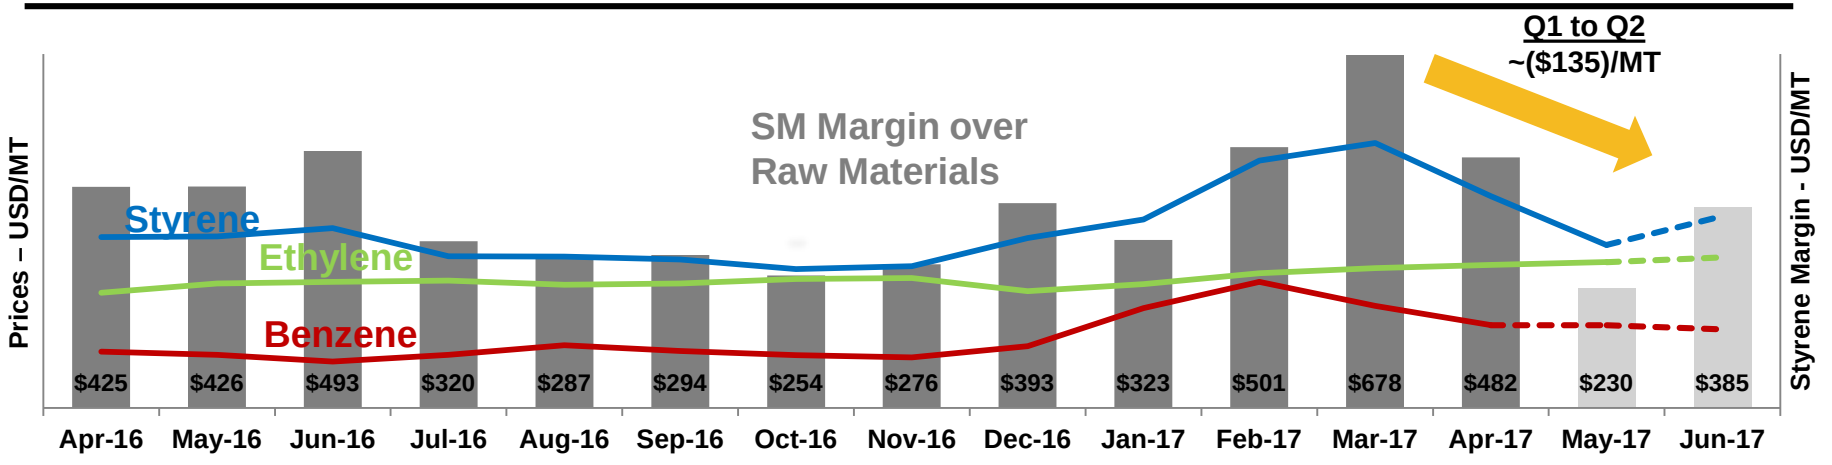

- Step change in EBITDA contribution

- Similar drivers to base Trinseo
  - Effective operating rates in styrene monomer
  - Strong styrene export position
  - Focus on PS business performance and reliable operations
  - Continued PS development to maintain leadership

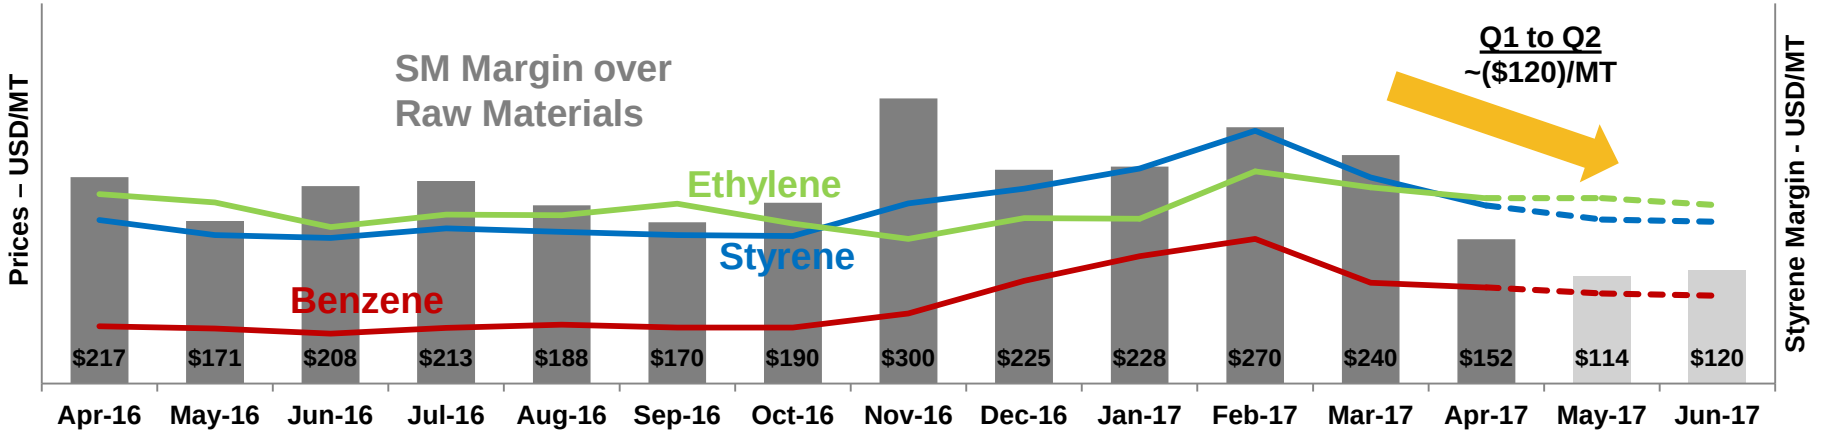

NOTE: Styrene / Polystyrene contribution from our Americas Styrenics segment based upon estimated splits as previously disclosed in our 2016 Annual Report on Form 10-K for the year ended December 31, 2016

Western Europe and Asia Styrene Margin Trends

Western Europe Margin (1)

Asia Margin (2)

Trinseo's Feedstocks reporting segment captures styrene monomer margin through both internally produced and cost-based purchases of styrene. Annually, we produce nearly 700 kilotons of styrene in Western Europe and purchase approximately 300 kilotons of styrene in Asia with cost-based economics. With all other inputs remaining equal, a $50 per metric ton change in styrene margins would be expected to impact the Feedstocks reporting segment's annual Adjusted EBITDA by approximately $35 million in Europe and approximately $15 million in Asia. Other factors that could impact the Feedstocks segment Adjusted EBITDA include, but are not limited to, utilities, freight, manufacturing costs, overhead costs, discounts of styrene, benzene, and ethylene, as well as raw material timing.

SOURCE: Western Europe Styrene, Benzene, Ethylene Prices: ICIS. Asia Styrene, Benzene, Ethylene prices: IHS. Styrene margin over raw materials: Trinseo. (1) Styrene: W. Europe Contract Monthly Market (Delivered W. Europe); Benzene: 50% W. Europe Spot Avg (CIF NW Europe / Basis ARA) and 50% W. Europe Contract – Market (FOB/CIF W. Europe); Ethylene: W. Europe Contract – Market Pipeline (Delivered W. Europe). (2) Styrene: NE Asia Avg Spot Posting (CFR China); Benzene: NE Asia Spot Avg (FOB S. Korea); Ethylene: NE Asia Spot Avg (CFR NE Asia). Styrene margin over raw materials: Styrene less (80% * Benzene) less (30% * Ethylene).

Q2 2017 Guidance

		Adj EBITDA* ($MM)	
Performance Materials	Latex Binders	~$32	• Continued strong performance in the business driven by tighter market conditions and cost actions
	Synthetic Rubber	~$25	• Lower spot sales in Q2, seasonality, maintenance
	Performance Plastics	~$30	• Continued strong demand from automotive markets
Basic Plastics & Feedstocks	Basic Plastics	~$35	• Polystyrene restocking
	Feedstocks	~$15	• Strong April styrene margins due to planned turnaround season with lower margins expected in May and June
	Americas Styrenics	~$35	• Stronger performance as styrene assets return to full operation • No impact from Q1 turnaround
	Corporate	~($24)	

Net Income $78MM - $86MM; Adj EBITDA* $145MM - $155MM
No net timing impact expected

* See Appendix for reconciliation of non-GAAP measures

Full Year 2017 Guidance

		Adj EBITDA* ($MM)	
Performance Materials	Latex Binders	~$125	• Higher YoY performance due to better market conditions as well as cost actions • $25 to $30 million per quarter run rate 2nd half of year
	Synthetic Rubber	~$110	• $10 to $15 million of SSBR expansion related costs in second half 2017
	Performance Plastics	~$130	• Continued area of focus for growth
Basic Plastics & Feedstocks	Basic Plastics	~$135	• Continued steady performance • YoY decline driven by China expansion, previous year Sumika income
	Feedstocks	~$80	• Flat to prior year
	Americas Styrenics	~$125	• Continued strong performance in both styrene and polystyrene
	Corporate	~($95)	

Net Income $337MM - $353MM; Adj EBITDA* $600MM - $620MM
$24MM of favorable timing (Q1 amount, assumes zero balance of year)
Performance Materials ~$365MM Adj EBITDA; BP&F ~$340MM Adj EBITDA

* See Appendix for reconciliation of non-GAAP measures

*Net Timing is the difference between Raw Material Timing and Price Lag. Raw Material Timing represents the timing of raw material cost changes flowing through cost of goods sold versus current pricing. Price Lag represents the difference in revenue between the current contractual price and the current period price.

NOTE: Totals may not sum due to rounding.
