

monday.com Announces Third Quarter 2023 Results

Third quarter revenue of \$189.2 million grew 38% year over year Number of customers with more than \$50k ARR grew 57% year over year Achieved record quarterly non-GAAP operating margin and free cash flow

New York / Tel Aviv, November 13, 2023 -- monday.com (NASDAQ: MNDY), a work operating system (Work OS) where organizations of any size can create the tools and processes they need to manage every aspect of their work, today reported financial results for its third quarter ended September 30, 2023.

Management Commentary:

"Q3 marked another strong quarter for monday.com, with continued momentum from our multi-product strategy and robust customer demand," said monday.com co-founders and co-CEOs, Roy Mann and Eran Zinman. "We are particularly pleased with our progress on mondayDB, our new infrastructure underpinning the WorkOS platform. The rollout of mondayDB remains ahead of schedule, and our customers are already seeing significant speed improvements for their largest and most complex use cases."

"We are very pleased with our performance in Q3, with strong top-line growth and impressive margin expansion and cash generation," said Eliran Glazer, monday.com CFO. "As a result, we are increasingly confident in our ability to reach our targets in both the short and long term, and to continue driving efficient growth at scale."

Third Quarter Fiscal 2023 Financial Highlights:

- Revenue was \$189.2 million, an increase of 38% year-over-year.
- GAAP operating loss was \$2.5 million compared to a loss of \$28.2 million in the third quarter of 2022; GAAP operating margin was negative 1% compared to negative 21% in the third quarter of 2022.
- Non-GAAP operating income was \$24.1 million compared to a loss of \$2.2 million in the third quarter of 2022; non-GAAP operating margin was 13% compared to negative 2% in the third quarter of 2022.
- GAAP basic and diluted net income per share was \$0.15 compared to GAAP basic and diluted net loss per share of \$0.51 in the third quarter of 2022; non-GAAP basic and diluted net income per share was \$0.68 and \$0.64, respectively, compared to non-GAAP basic and diluted net income per share of \$0.06 and \$0.05, respectively, in the third quarter of 2022.
- Net cash provided by operating activities was \$66.6 million, with \$64.9 million of free cash flow, compared to net cash provided by operating activities of \$20.0 million and \$14.0 million of free cash flow in the third guarter of 2022.

Recent Business Highlights:

- Net dollar retention rate was over 110%.
- Net dollar retention rate for customers with more than 10 users was over 115%.
- Net dollar retention rate for customers with more than \$50,000 in annual recurring revenue ("ARR") was over 115%.
- The number of paid customers with more than \$50,000 in ARR was 2,077, up 57% from 1,323 as of September 30, 2022.
- Began the initial release of mondayDB 1.1, the second phase in the rollout of our new infrastructure for the Work OS
 platform, focused on improving speed for large dashboards.

Financial Outlook:

For the fourth quarter of fiscal year 2023, monday.com currently expects:

- Total revenue of \$196 million to \$198 million, representing year-over-year growth of 31% to 32%.
- Non-GAAP operating income of \$7 million to \$9 million and operating margin of 4% to 5%.

For the full year 2023, monday.com currently expects:

- Total revenue of \$723 million to \$725 million, representing year-over-year growth of 39% to 40%.
- Non-GAAP operating income of \$47 million to \$49 million and operating margin of approximately 7%.

Non-GAAP Financial Measures:

This press release and the accompanying tables contain the following non-GAAP financial measures: revenue excluding FX impacts, non-GAAP gross profit, non-GAAP gross margin, non-GAAP sales and marketing expenses, non-GAAP research and development expenses, non-GAAP general and administrative expenses, non-GAAP operating income (loss), non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per share and free cash flow. Certain of these non-GAAP financial measures exclude share-based compensation.

monday.com believes that these non-GAAP financial measures provide useful information to management and investors regarding certain financial and business trends relating to monday.com's financial condition and results of operations. monday.com management uses these non-GAAP measures to compare monday.com performance to that of prior periods, for trend analysis and for budgeting and planning purposes. monday.com believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing monday.com financial results to the results of other software companies, many of which present similar non-GAAP financial measures to investors. The non-GAAP financial information is presented for supplemental informational purposes only and should not be considered a substitute for financial information presented in accordance with GAAP and may be different from similarly titled non-GAAP measures used by other companies.

Management does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in monday.com financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these non-GAAP financial measures.

Reconciliation tables of the most directly comparable GAAP financial measures to the non-GAAP financial measures used in this press release are included with the financial tables at the end of this release. monday.com urges investors to review these reconciliation tables and not to rely on any single financial measure to evaluate the monday.com business. Management is not able to forecast GAAP net income (loss) on a forward-looking basis without unreasonable efforts due to the high variability and difficulty in predicting share-based compensation expense, the amounts of which may be significant in future periods.

Definitions of Business Key Performance Indicators

Net Dollar Retention Rate

We calculate Net Dollar Retention Rate as of a period end by starting with the ARR from customers as of the 12 months prior to such period end ("Prior Period ARR"). We then calculate the ARR from these customers as of the current period end ("Current Period ARR"). The calculation of Current Period ARR includes any upsells, contraction and attrition. We then divide the total Current Period ARR by the total Prior Period ARR to arrive at the Net Dollar Retention Rate. For the trailing 12-month calculation, we take a weighted average of this calculation of our quarterly Net Dollar Retention Rate for the four quarters ending with the most recent quarter.

Annual Recurring Revenue ("ARR")

Is defined to mean, as of the measurement date, the annualized value of our customer subscription plans assuming that any contract that expires during the next 12 months is renewed on its existing terms.

(1) The tax benefits generated from the exercise of the disqualifying disposition of incentive share options were excluded in calculating non-GAAP net income (loss) and non-GAAP net income (loss) per basic and diluted share. The Company believes that excluding these tax benefits enables investors to see the full effect that excluding share-based compensation expenses had on the operating results.

(2) The effect of these dilutive shares was not included in the GAAP calculation of diluted net loss per share because the effect would have been anti-dilutive, with the exception of the three months ended September 30, 2023.

The following table reconciles our quarterly reported year-over-year revenue growth rates to the non-GAAP measure of FX adjusted year-over-year revenue growth rates which excludes the impact of changes in foreign currency exchange rates. The company believes FX adjusted growth rates provide a useful framework for assessing our business performance excluding the effects of foreign currency exchange rate fluctuations. The impact of foreign currency exchange rate fluctuations is determined by calculating the current year result using foreign exchange rates consistent with the prior year:

	Three months ended September 30,
