FORWARD LOOKING STATEMENTS

This presentation includes forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995). Forward-looking statements can be identified by such words and phrases as “believes,” “anticipates,” “expects,” “intends,” “estimates,” “may,” “will,” “should,” “continue” and similar expressions, comparable terminology or the negative thereof, and includes statements in this presentation regarding our expectations for fiscal year 2022; our expectations for opportunities for growth and demand for our products, including beyond calendar year 2022; and our ability to continue to deliver value for our shareholders.

Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, including, but not limited to: the effects of the COVID-19 pandemic on us; general industry, economic and business conditions; our ability to grow our business through acquisitions and integrate such acquisitions to fully realize their expected benefits, including our recent acquisitions of AmTech, LLC and Maverick Boat Group; our reliance on our network of independent dealers and increasing competition for dealers; our large fixed cost base; intense competition within our industry; increased consumer preference for used boats or the supply of new boats by competitors in excess of demand; the successful introduction of new products; our ability to execute our manufacturing strategy successfully; the success of our engines integration strategy; and other factors affecting us detailed from time to time in our filings with the Securities and Exchange Commission. Many of these risks and uncertainties are outside our control, and there may be other risks and uncertainties which we do not currently anticipate because they relate to events and depend on circumstances that may or may not occur in the future. Although we believe that the expectations reflected in any forward-looking statements are based on reasonable assumptions at the time made, we can give no assurance that our expectations will be achieved. Undue reliance should not be placed on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation (and we expressly disclaim any obligation) to update or supplement any forward-looking statements that may become untrue because of subsequent events, whether because of new information, future events, changes in assumptions or otherwise. Comparison of results for current and prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

USE & DEFINITION OF NON-GAAP FINANCIAL MEASURE

This presentation includes the following financial measures defined as non-GAAP financial measures by the Securities and Exchange Commission: Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Fully Distributed Net Income and Adjusted Fully Distributed Net Income per Share. These measures have limitations as analytical tools and should not be considered as an alternative to, or more meaningful than, net income as determined in accordance with U.S. generally accepted accounting principles ("GAAP") or as an indicator of our liquidity. Our presentation of these non-GAAP financial measures should also not be construed as an inference that our results will be unaffected by unusual or non-recurring items. Our computations of these non-GAAP financial measures may not be comparable to other similarly titled measures of other companies.

We define Adjusted EBITDA as net income before interest expense, income taxes, depreciation, amortization and non-cash, non-recurring or non-operating expenses, including certain professional fees, acquisition and integration-related expenses and non-cash compensation expense. We define Adjusted EBITDA Margin as Adjusted EBITDA divided by net sales. Adjusted EBITDA and Adjusted EBITDA Margin are not measures of net income as determined by GAAP. Management believes Adjusted EBITDA and Adjusted EBITDA Margin allow investors to evaluate our operating performance and compare our results of operations from period to period on a consistent basis by excluding items that management does not believe are indicative of core operating performance. Management uses Adjusted EBITDA to assist in highlighting trends in our operating results without regard to our financing methods, capital structure, and non-recurring or non-operating expenses. We exclude the items listed above from net income in arriving at Adjusted EBITDA because these amounts can vary substantially from company to company within our industry depending upon accounting methods and book values of assets, capital structures, the methods by which assets were acquired and other factors.

Certain items excluded from Adjusted EBITDA are significant components in understanding and assessing a company's financial performance, such as a company's cost of capital and tax structure, as well as the historical costs of depreciable assets.

We define Adjusted Fully Distributed Net Income as net income attributable to Malibu Boats, Inc. (i) excluding income tax expense, (ii) excluding the effect of non-recurring or non-cash items, (iii) assuming the exchange of all LLC units into shares of Class A Common Stock, which results in the elimination of non-controlling interest in Malibu Boats Holdings, LLC (the "LLC"), and (iv) reflecting an adjustment for income tax expense on fully distributed net income before income taxes at our estimated effective income tax rate. Adjusted Fully Distributed Net Income is a non-GAAP financial measure because it represents net income attributable to Malibu Boats, Inc., before non-recurring or non-cash items and the effects of non-controlling interests in the LLC. We use Adjusted Fully Distributed Net Income to facilitate a comparison of our operating performance on a consistent basis from period to period that, when viewed in combination with our results prepared in accordance with GAAP, provides a more complete understanding of factors and trends affecting our business than GAAP measures alone. We believe Adjusted Fully Distributed Net Income assists our board of directors, management and investors in comparing our net income on a consistent basis from period to period because it removes non-cash or non-recurring items, and eliminates the variability of non-controlling interest as a result of member owner exchanges of LLC units into shares of Class A Common Stock. In addition, because Adjusted Fully Distributed Net Income is susceptible to varying calculations, the Adjusted Fully Distributed Net Income measures, as presented in this presentation, may differ from and may, therefore, not be comparable to similarly titled measures used by other companies.

A reconciliation of our net income as determined in accordance with GAAP to Adjusted EBITDA and the numerator and denominator for our net income available to Class A Common Stock per share to Adjusted Fully Distributed Net Income per share of Class A Common Stock is provided under "Reconciliation of Non-GAAP Financial Measures".

KEY TAKEAWAYS

Positioned for long-term, sustainable success resulting in increased profitability

- Record-setting quarter driven by our operational execution through our manufacturing capabilities despite ongoing supply chain constraints and material pricing pressures
- Pushing boundaries of innovation and luxury across our suite of brands, with continued strong demand
- Capitalizing on retail environment and unprecedented dealer inventory shortage, with orders holding steady
- Capturing the benefits of our differentiated vertical integration strategy and operational excellence with Malibu Electronics and the completed Maverick plant expansion
- Continued outperformance providing our customers with the most innovative boats on the water

Malibu Boats | Cobalt Boats | Pursuit | Axis | MBG Maverick Boat Group — Maverick / Pathfinder / Hewes / Cobia

MAVERICK FACILITY EXPANSION

- Completed our Maverick phase II facility expansion and produced our first boats out of the 110,000 square foot expansion in early Q4, significantly increasing our production square footage for our Cobia and Pathfinder brands
- Similar to the addition at Pursuit, our Maverick expansion supports increased production capacity, including more and larger boats, while enhancing the margin profile of boats built at MBG
- When supply chain issues subside, the facility will support expanded distribution

OPERATIONAL EXCELLENCE & VERTICAL INTEGRATION

OPERATIONAL EXCELLENCE

- Culture centered on superior employees building the highest quality products in the most efficient manner
- Provides an unmatched value to our dealers and customers
- Vertical integration supports operational excellence
- Allows us to encounter and overcome operating issues out of our control quickly
- Implementing the same strategy at Cobalt, Pursuit, and ultimately Maverick
- Drives margin expansion over the long-term

VERTICAL INTEGRATION

- Vertical integration strategy is a competitive differentiator across all brands, driving overall growth and profitability
- Allows us to control a greater portion of our supply chain, quality and input costs
- Malibu Electronics highlights latest efforts to build on existing foundation
- Additional vertical integration projects are always in the works
- More opportunities to generate new synergies across brands in FY 2022 and beyond
