Mitel Named a Leader in Gartner Magic Quadrant for Unified Communications for Fourth Consecutive Year

7/26/2017

Mitel® (NASDAQ:MITL) (TSX:MNW), a global leader in enterprise communications, has been acknowledged as a Leader for the fourth consecutive year in the Gartner Magic Quadrant for Unified Communications.

In the Gartner July 2017 report, recently published, Gartner notes, "It is important for organizations that invest in premises-centric UC technology that they have a clear migration path toward cloud services with partners that are commercially and operationally viable."

As demand for flexible and cost-effective solutions increases, Mitel is drawing from its deep experience to ensure customers can easily migrate to the cloud. Mitel's **MiCollab** and **MiTeam** offer a full suite of collaboration applications available across deployment models and provide a consistent user experience from any device. MiTeam, a context-aware, collaborative workspace, is wholly-derived from the cloud, so hybrid deployments seamlessly integrate. The company is also cloud-enabling businesses with existing infrastructure from Mitel or other vendors through its new CloudLink capability, and investing in an application integration strategy to fuel the development of vertical-specific productivity applications.
