Mitel Reports June Quarter Results

7/27/2017

Mitel® (Nasdaq:MITL) (TSX:MNW), a global leader in enterprise communications, today announced financial results for the second quarter ended June 30, 2017.

"During the quarter, Mitel experienced a distinct acceleration by its customers into hosted cloud solutions and services. That shift manifested itself in a record level of cloud bookings for the company," said Rich McBee, Chief Executive Officer. "In line with the market shift, in the second quarter Mitel initiated significant organization structural changes to accelerate our move-to-the-cloud strategy further with the consolidation of previously separate Enterprise and Cloud organizations. While we expect the benefits of these changes to be fully realized in the coming quarters, we have seen immediate improvements in customer experience and reduced operational expenditures as a result of our business realignment."

In commenting about the agreement to acquire ShoreTel announced earlier today, Mr. McBee stated, "This consolidation will accelerate our growth strategy by transitioning the company further and faster into the UCaaS market as digital transformation increases customer demand for cloud-based solutions worldwide. The combined company will be stronger together with the scale and cloud technologies to take customers to the cloud faster."
