NEWS RELEASE

Mitel User Group Hosts Elite Experience Event May 30-June 2

4/20/2017

- Headlined by Olympic gold medalist Michael Johnson, President and Founder of Michael Johnson Performance, and Dr. Vijay Gurbaxani, Founding Director of the Center for Digital Transformation at University of California, Irvine.
- Features an Innovation Center, group training and highly-collaborative workshops with hands-on experience.
- Register now for the San Antonio, Texas, event and receive a discounted rate through April 28.

The Mitel User Group, a global community driven and managed by customers of Mitel® (Nasdaq:MITL) (TSX:MNW), a global leader in enterprise communications, will hold its annual conference and general meeting May 30-June 2 welcoming members from across the Americas Region to the JW Marriott in San Antonio, Texas.

The Elite Experience event includes a full lineup of speakers with keynotes from Michael Johnson and Dr. Vijay Gurbaxani. Johnson, 13-time World and Olympic gold medalist, operates a Dallas-based Athletic Performance training center. Hear how his organization radically improved the way its coaches communicate with athletes around the world. Then, get unique insight from Dr. Gurbaxani, Founding Director of the Center for Digital Transformation at the University of California, Irvine, on the imperative of digital transformation, what companies need to focus on and how today's technology will shape tomorrow's business.

Mitel CEO Rich McBee and others from the company's senior leadership team are also scheduled to speak. Come interact with leading customers and experts across government, healthcare, hospitality, education and more. Breakout sessions and product demonstrations will cover a range of solutions around cloud, collaboration, contact center, enterprise mobility and beyond.

To attend, **register** now and receive the discounted rate through April 28.

Quotes

"Elite Experience is a 'must-attend' event for getting real-world, practical solutions to your organization's business communications challenges," Torre Bookout, President of Americas Region, Mitel User Group. "It provides a unique opportunity to make new connections, learn best practices from peers at companies in industries like your own and start to envision how your business will evolve to enter the era of digital transformation."

"As digital transformation accelerates worldwide, it's redefining how companies communicate and collaborate," said Rich McBee, CEO, Mitel. "Mitel is providing businesses a path forward, no matter their starting point or speed of journey, with communications and collaboration solutions that will allow them to leverage next-generation mobile, cloud-based productivity and IoT applications to gain a competitive advantage."
