# Discussion of financial and operational results for the second quarter Income statement

Consolidated total revenue was \$1.2 billion compared to \$1.3 billion reported in the prior year quarter, reflecting foreign exchange headwinds of 400 bps. U.S. revenue grew 2% to \$816 million. Mexico revenue declined 14% to \$394 million, or 4% excluding FX.

Advertising revenue decreased 5% to \$742 million, or 1% excluding foreign exchange. In the U.S., advertising revenue decreased 2% to \$455 million, reflecting a sequential improvement versus the first quarter as growth in ViX and linear ratings stabilized driven by the strong performance of our sports content. In Mexico, advertising revenue was stable in local currency driven by ViX and a strong sports programming slate that was partially offset by a decline in local advertising revenue.

Subscription and licensing revenue was flat at \$443 million, but grew 2% excluding foreign exchange. The growth was driven by ViX's premium tiers in both geographies offsetting linear platform declines primarily related to the renewal cycle with a key distribution partner in Mexico. The U.S. grew 9% to \$348 million while Mexico declined 23% to \$95 million, but grew 13% excluding foreign exchange and the renewal cycle impact.

Operating expenses decreased 9% to \$812 million, or 6% excluding the impact of FX, driven by the disciplined execution of our cost saving initiatives including lower content, technology, and marketing costs, and the normalization of our DTC related investments.

Adjusted OIBDA grew 10% to \$398 million, or 14% excluding the impact of FX, reflecting the benefits of our streamlined cost structure and continued DTC profitability.

#### Cash flow and balance sheet

The Company ended the guarter with \$585 million in cash on its balance sheet.

#### Forward-Looking Statements / Safe Harbor

Certain statements contained within this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases you can identify forward looking statements by terms such as "anticipate," "plan," "may," "intend," "will," "expect," "believe," "optimistic" or the negative of these terms, and similar expressions intended to identify forward-looking statements. These forward-looking statements reflect our current views with respect to future events and are based on assumptions and are subject to risks and uncertainties. Also, these forward-looking statements present our estimates and assumptions only as of the date of this press release.

Factors that could cause actual results to differ materially from those expressed or implied by the forwardlooking statements in this press release include: (1) cancellations, reductions or postponements of advertising or other changes in advertising practices among our advertisers; (2) any impact of adverse economic or political conditions on our industry, business and financial condition, including inflationary pressures, increases in interest rates, decreases in consumer spending, recessionary fears and reduced advertising revenue and volatility and weakness in the capital markets; (3) failure to renew existing carriage agreements or reach new carriage agreements with multichannel video programming distributors ("MVPDs") on acceptable terms or otherwise and the impact of such failure on pricing terms of, and contractual obligations under, carriage agreements with other MVPDs; (4) changes in the size of the U.S. Hispanic population, including the impact of U.S. federal and state immigration legislation and policies on both the U.S. Hispanic population and persons emigrating from Latin America; (5) failure to continue our content and programming strategy, including for our sports programming and the content we obtain from Grupo Televisa, as well as lack of audience acceptance of our content or varying popularity of programming; (6) competition in the media industry, including effects of consolidation in the cable or satellite MVPD industry; (7) risks and uncertainties related to, and disruptions to our business and operations caused by, the TelevisaUnivision Transaction and the combination of the companies' content business; (8) failure of our subscription video-on-demand ("SVOD") or ad-supported video-on-demand ("AVOD") services as part of our strategy to provide streaming channels and on-demand Spanish-language programming to Hispanic audiences throughout the world; (9) disruption of our business due to network and information systemsrelated events, such as computer system or network breaches, hackings or other security incidents, viruses, or other destructive or disruptive software or activities; (10) failure to protect our intellectual property, including piracy of our programming and other content, or other infringement or violation of our intellectual property rights, (11) the impact of U.S. and Mexican regulations including Federal Communications Commission regulations and other U.S. and Mexican communications laws, as well as the impacts of tariff and trade policies; (12) risks related to our substantial indebtedness and ability to pay our debt; and (13) other factors that may be set forth in the Forward Looking Statements accompanying our annual audited and interim unaudited financial statements from time to time. Actual results may differ materially due to these risks and uncertainties. The Company undertakes no obligation to modify or revise any forwardlooking statements to reflect events or circumstances occurring after the date that the forward-looking statement was made.

#### **Non-GAAP Financial Measures**

Management of the Company evaluates operating performance for planning and forecasting future business operations by considering operating income before depreciation, amortization and certain additional adjustments to operating income ("Adjusted OIBDA"). See "Reconciliation of Operating Income to Adjusted

EARNINGS PRESS RELEASE Page 4 of 9

OIBDA" beginning on page 8 hereof.

In addition, the Company presents certain information on an "ex-FX" basis, meaning that it is presenting information on a basis that excludes the impact of foreign exchange rates. The impact of exchange rates on our business is an important factor in understanding period-to-period comparisons of our results. For example, our international revenues are favorably impacted as the U.S. dollar weakens relative to other foreign currencies, including the Mexican peso, and unfavorably impacted as the U.S. dollar strengthens relative to other foreign currencies, including the Mexican peso. We believe the presentation of results on an "ex-FX" basis, in addition to results reported in accordance with U.S. GAAP provides useful information about our operating performance because the presentation ex-FX excludes the effects of foreign currency volatility and highlights our core operating results. The presentation of results on an ex-FX basis should be considered in addition to, but not a substitute for, measures of financial performance reported in accordance with U.S. GAAP.

The ex-FX change represents the percentage change on a period-over-period basis adjusted for foreign currency impacts. The ex-FX change is calculated as the difference between the current year amounts translated at a baseline rate, which is an average rate for each of our currencies (the "2024 Baseline Rate"), and the prior year amounts translated at the same 2024 Baseline Rate. Results on an ex-FX basis, as we present them, may not be comparable to similarly titled measures used by other companies, including "constant currency basis".

### RECONCILIATION OF OPERATING INCOME TO ADJUSTED OIBDA

Management of the Company evaluates operating performance for planning and forecasting future business operations by considering Adjusted OIBDA (as described below) and Bank Credit Adjusted OIBDA (as described below). Management also uses Bank Credit Adjusted OIBDA to assess the Company's ability to satisfy certain financial covenants contained in the Company's senior secured credit facilities and the indentures governing its senior notes. Adjusted OIBDA and Bank Credit Adjusted OIBDA eliminate the effects of certain items that the Company does not consider indicative of its core operating performance. Adjusted OIBDA represents operating income (loss) before depreciation, amortization, and certain additional adjustments to operating income (loss). Bank Credit Adjusted OIBDA represents Adjusted OIBDA with certain additional adjustments permitted under the Company's senior secured credit facilities, new term loan and indentures governing the senior notes that include add-backs and/or deductions, as applicable, for specified business optimization expenses, and income (loss) from equity investments in entities, the results of which are consolidated in the Company's operating income (loss), that are not treated as subsidiaries, and certain other expenses. Adjusted OIBDA and Bank Credit Adjusted OIBDA are not, and should not be used as, indicators of or alternatives to operating income (loss) as reflected in the consolidated financial statements. They are not measures of financial performance under GAAP and they should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Since the definition of Adjusted OIBDA and Bank Credit Adjusted OIBDA may vary among companies and industries, neither should be used as a measure of performance among companies. The Company is providing a reconciliation of the non-GAAP terms Adjusted OIBDA and Bank Credit Adjusted OIBDA to operating income, which is the most directly comparable GAAP financial measure.

The tables below set forth a reconciliation of the non-GAAP terms Adjusted OIBDA and Bank Credit Adjusted OIBDA to operating income.
